Class 2, 3, or 4 town highway

Private road/drive

Railroad

Parcel boundary (1999)

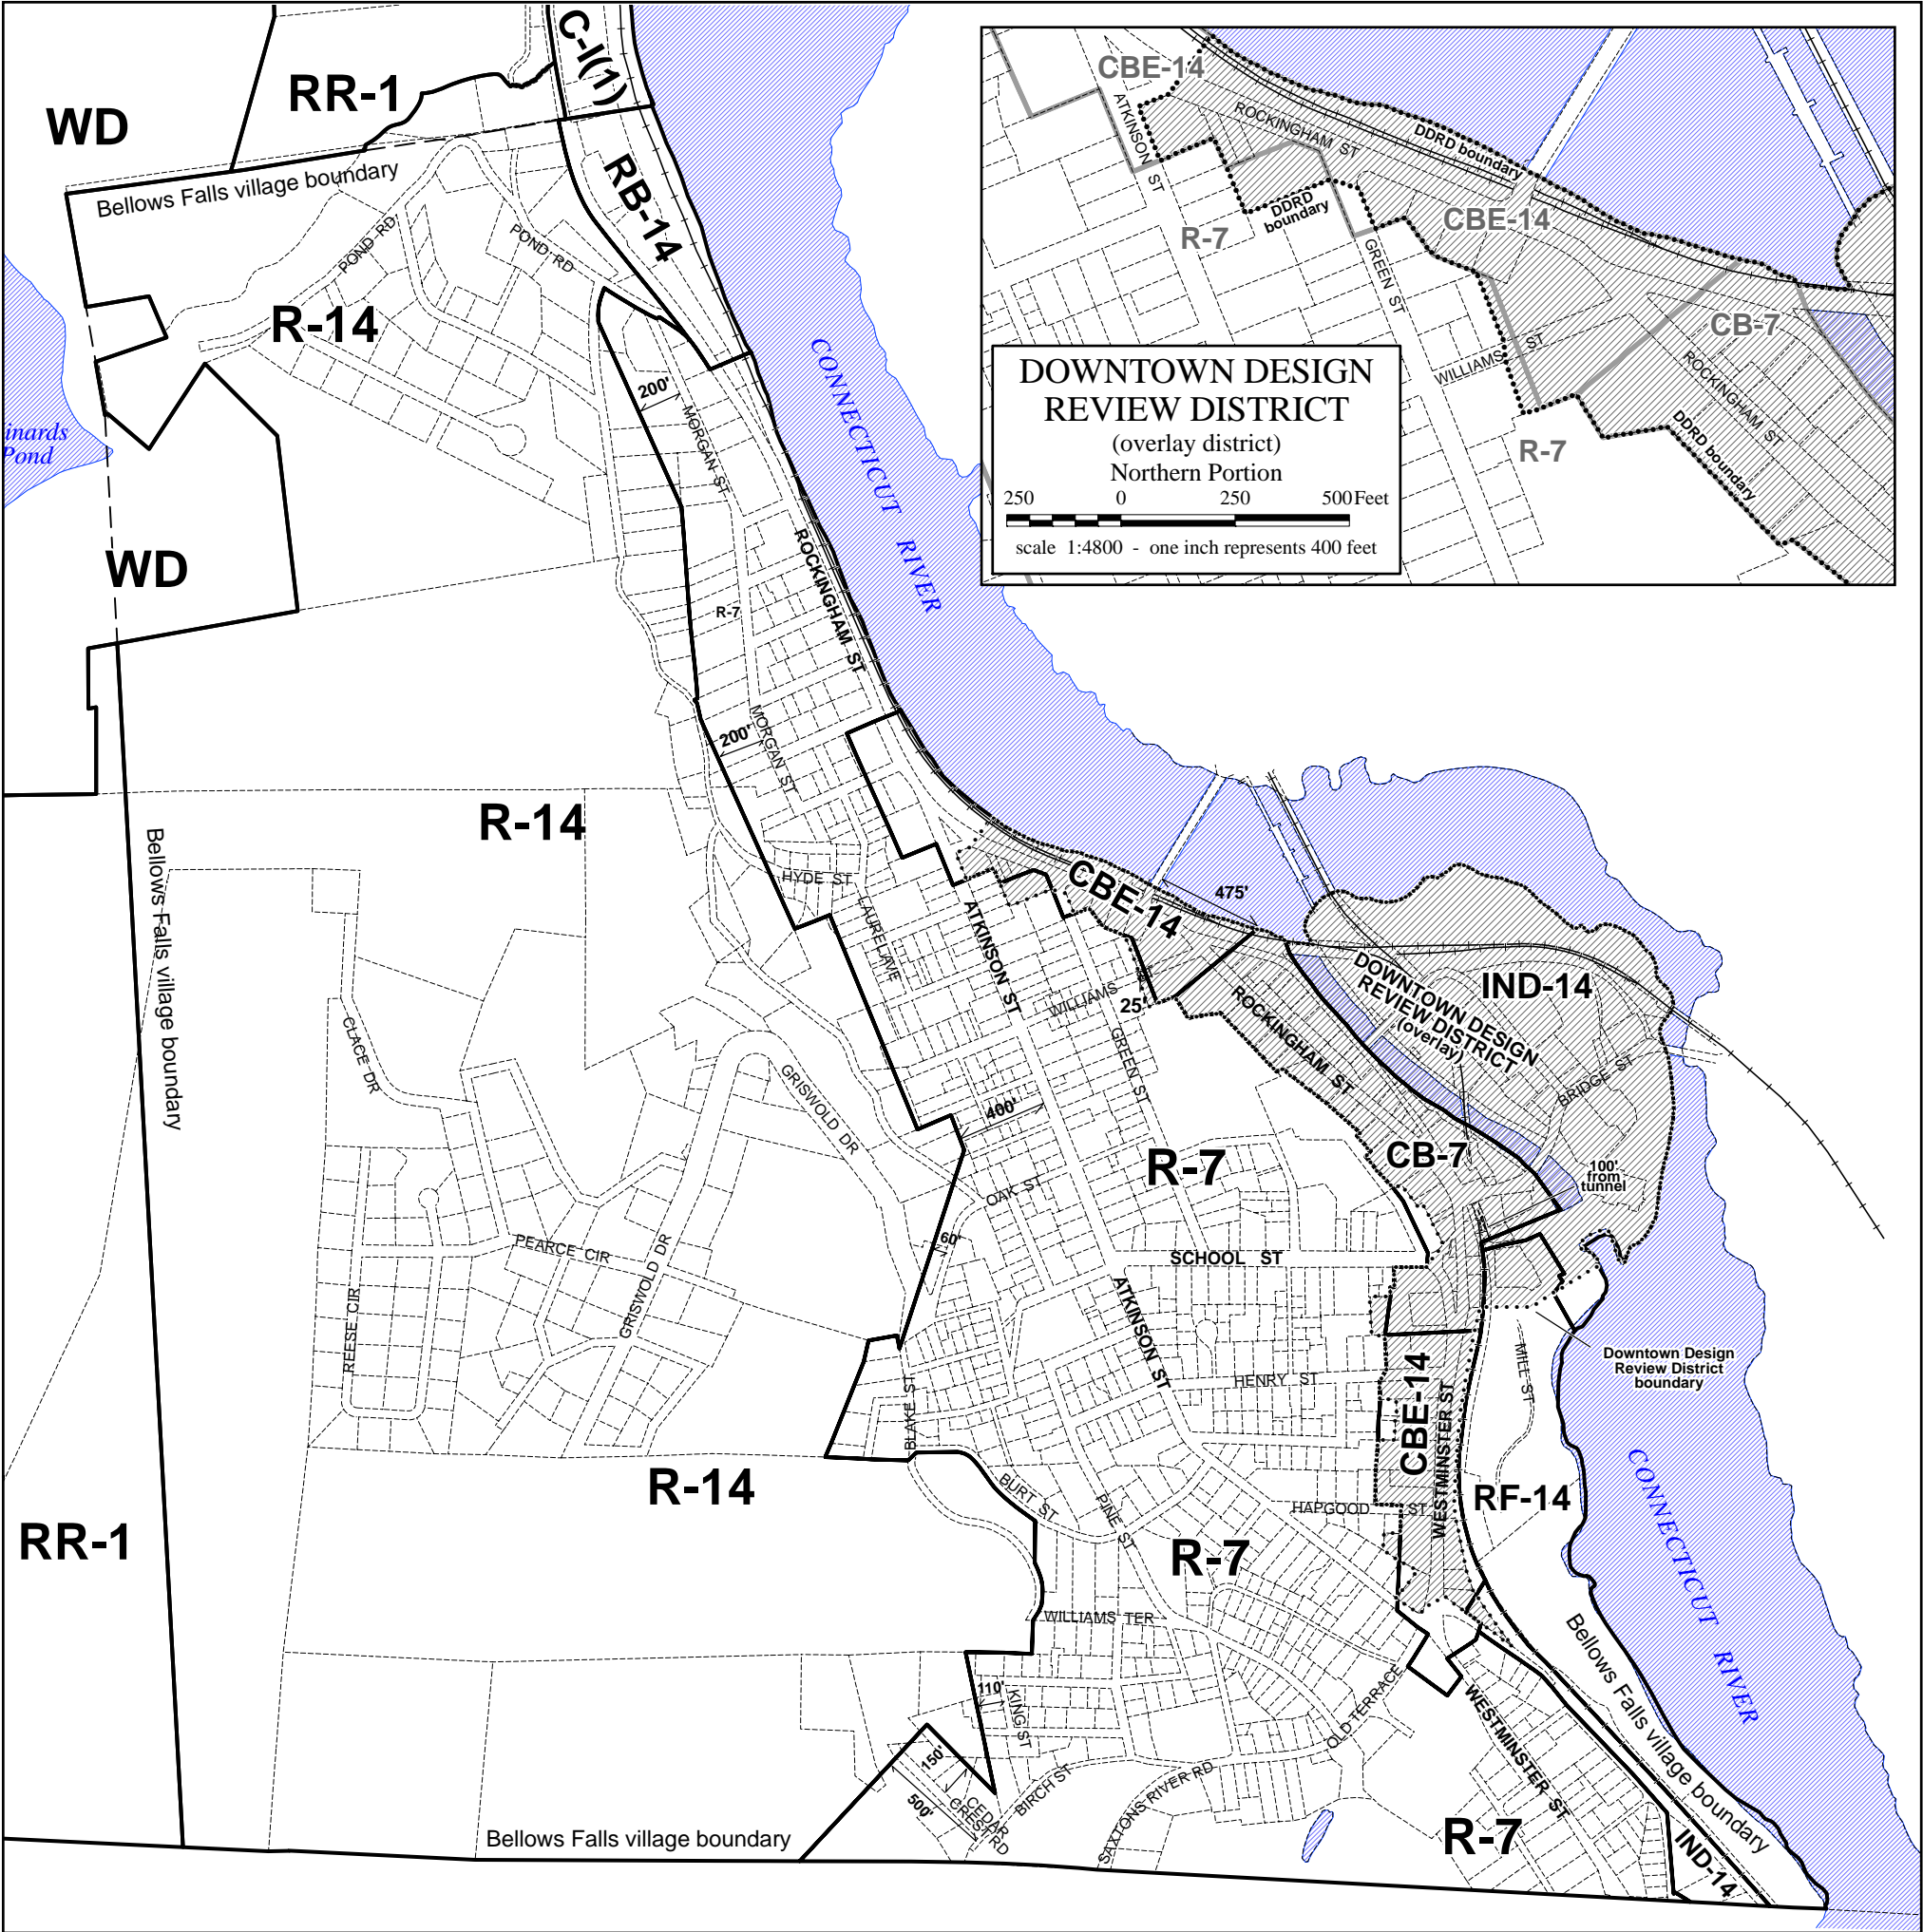

Streams

Rivers or Pond

Data sources:

- Zoning district boundaries are based on the Town of Rockingham Zoning Bylaws. These boundaries were amended on June 9, 2009. Data depicting the location of zoning district boundaries were developed by Windham Regional Commission in close consultation with Rockingham's Zoning Administrator. In many cases, these boundaries are coincident with, and were derived from features represented in other 1:5000-scale GIS data.
- Highway data are from Vt. Agency of Transportation sources (VGIS data layer RD5nnnnn). Data were corrected and updated by Windham Regional Commission in 2005 using Vermont digital orthophotos and information provided by the Town of Rockingham.
- Railroad data were taken from VGIS data layer RR. These data were developed by digitizing railroad centerlines from 1:5000 orthophotos.
- Parcel boundaries are taken from 1:5000-based AutoCad data developed by Russell Graphics, Corning, NY in 1999. The locations of these boundaries are approximate, and any errors in the data have not been corrected.
- Surface waters are from the Vermont Hydrography Dataset (VGIS data layer SWnnnnnnn). The dataset was generated at a scale of 1:5000 and was developed using digital orthophotos, topographic maps, color infra-red aerial photography and other ancillary data sources.
