Article 1: Authority and Purpose

Section 1.1: Enactment

These Zoning Regulations for the Town of Montgomery are enacted in accordance with the provisions 24 V.S.A. Chapter 117, the Vermont Municipal and Regional Planning and Development Act, ("The Act" herein).

Section 1.2: Purpose

It is the purpose of the Montgomery Zoning Regulations to provide for orderly community growth, to further the purposes established in §4302 of the Act, and to implement the Town Plan.

Section 1.3: Applicability

No land development, as defined in 24 V.S.A. Chapter 117, §4303(10) of the Act, including the division of a parcel into two or more parcels; new construction, reconstruction, conversion, structural alteration, relocation, or enlargement of any building or other structure (see Section 4.1(A)(1)(a)), or of any mining, earth resource extraction, and change in the use of any building or other structure, or land or extension of use of land shall commence except in compliance with these Regulations.

Section 1.4: Severability

If any portion of the Zoning Regulations are held unconstitutional or invalid by a court of competent jurisdiction, the unaffected portions shall remain in force, and for this purpose the provisions of the Regulations are severable.

Section 1.5: Interpretation

The Zoning Regulations shall not repeal, abrogate or impair any other applicable land use controls (including statutes, regulations, rules, ordinances, permits, easements, deed restrictions, covenants or similar devices). However, in their interpretation and application, the provisions of the Regulations shall be held to be minimum requirements which shall take precedence over any concurrent and less restrictive control. It is also hereby stated that in any conflict or dispute involving these Regulations, that the intent shall be considered in resolving any ambiguity.

Section 1.6: Amendments

These Regulations may be amended according to the requirements and procedures established in §§4441 and 4442 of the Act. Mandatory requirements enacted by the State will automatically become a part of these Zoning Regulations.

1 **Section 1.7: Effective Date**

2
3 The Zoning Regulations and any Amendment thereto shall take effect upon adoption.
4

5 **Section 1.8: Review of Applications during Adoption**

6
7 An application filed upon the date of public notice for the Selectboard's first public
8 hearing on this proposed amendment, and for a period of 150 days thereafter, an
9 application must meet the conditions of both present and proposed bylaws, as stated in
10 24 V.S.A. §4449(d).

1 **Article 2: Administration and Enforcement**

2
3 **Section 2.1: Administrative Officer, Development Review Board and**
4 **Montgomery Planning Commission (MPC)**

5
6 **A) Zoning Administrator (ZA).** The ZA shall be nominated by the Montgomery
7 Planning Commission (MPC), and appointed by the Selectboard, for a term of three
8 (3) years. The ZA may serve on any municipal board or hold any town office except
9 the Development Review Board (DRB). The ZA may be removed from office for just
10 cause at any time by the Selectboard, after consultation with the Montgomery
11 Planning Commission.

12 1) The ZA is empowered by §4448 of the Act and shall administer and interpret
13 these Regulations literally, and shall not have the power to permit any land
14 development which is not in accordance with these Regulations.

15 2) The ZA shall maintain a record of all Applications received for zoning permits
16 along with any accompanying documents, and of all permits or other
17 determinations issued.

18
19 **B) Development Review Board (DRB).** The Selectboard shall appoint five (5)
20 members and two (2) alternates, who shall serve for a term of four (4) years.
21 Members may be compensated at the Selectboard's discretion for the performance
22 of their duties pursuant to 24 V.S.A §4461(c).

23
24 The DRB shall have the following powers and duties:

- 25
26 1) Hear and decide appeals of actions made by the ZA, including, without limitation,
27 any appeal alleging an error committed by the ZA;
28 2) Hear and decide variance applications;
29 3) Hear and decide conditional use approval applications;
30 4) Hear and decide Planned Unit Development, (PUD) applications under
31 conditional use review;
32 5) Hear and decide applications for development in the Special Flood Hazard Area
33 or the River Corridor; and
34 6) Hear and decide anything else that requires DRB review according to these
35 Regulations.

36
37 **C) Montgomery Planning Commission.** Shall be comprised of five (5) members who
38 also may serve as members of the DRB. Members shall be elected at town
39 meetings by ballot for a term as decided by the voters. Elections shall occur only as
40 terms are completed, or as vacancies occur. Vacancies shall be filled by
41 appointment of the Selectboard only until the next meeting of the town, at which time
42 the voters shall elect a member to fill the unexpired term.

43
44 The duties shall be to keep the Town Plan and Zoning Regulations current with
45 changes in the Act or requested by the Selectboard, and responsive to the needs of

1 the town by amending and updating when necessary in accordance with §§4441 and
2 4442 of the Act, and may perform such other duties as set forth in §4325 of the Act.

3 4 **Section 2.2: Zoning Permit Issuance and Posting Requirements.**

5
6 The ZA shall act upon zoning permit applications within thirty (30) days from the date of
7 receipt by approving, referring the application to the DRB, or denying the application. If
8 the application is denied or referred to the DRB, the ZA shall so notify the applicant in
9 writing, stating the reasons for the denial or referral. In issuing zoning permits, if the ZA
10 fails to act with regard to an application for a permit within thirty (30) days, whether by
11 issuing a decision or by making a referral to the DRB, a permit shall be deemed issued
12 on the thirty first (31st) day.

13
14 **A) Statement of Appeal.** In accordance with §4449(b) of the Act, a zoning permit shall
15 include a statement of the time within which appeals may be taken. No permit shall
16 become effective until the time for appeal has passed.

17 18 **B) Posting/Notice.**

- 19 a) Upon issuance of a zoning permit, the ZA shall post a notice of permit within
20 view from the public right-of-way most nearly adjacent to the subject property
21 until the time for appeal has passed.
22 b) The ZA, within three (3) days of the date of issuance, shall deliver a copy of the
23 zoning permit to the Listers and shall post a copy of the permit in the municipal
24 offices.

25
26 **C) Expiration.** If the application is approved, all activities authorized by the zoning
27 permit shall be commenced within one (1) year from the date of issuance, otherwise
28 the permit becomes null and void.

29 30 **Section 2.3: Fees**

31
32 **A)** The fees for applications required by these Regulations shall be as established in a
33 rate fee schedule prepared by the Montgomery Planning Commission and adopted
34 by the Selectboard. Upon request of the Selectboard the MPC shall propose a
35 schedule.

36
37 **B)** Every application for a zoning permit and/or DRB approval must be accompanied by
38 the required fee, unless waived by the Selectboard.

39 40 **Section 2.4: Public Hearings**

41 42 **A) Public Notice.**

- 43
44 1) In accordance with the §4464 of the Act, the DRB is required to hold a warned
45 public hearing for conditional use review, PUD under conditional use review, ZA

1 appeals and variances. Any public notice for a warned public hearing shall be
2 given not less than 15 days prior to the date of the public hearing by all of the
3 following:

- 4 a) Publication of the date, time, place and purpose of the hearing in a
5 newspaper of general circulation in the municipality;
- 6 b) Posting of the same information in three (3) or more public places within the
7 municipality, in addition to the posting of a notice within view from the public
8 right-of-way nearest to the property for which the application is being made;
- 9 c) Written notification, by first class mail, to the applicant and to owners of all
10 properties adjoining the property subject to development, including those
11 separated by a right of way, which includes, information that clearly informs
12 the recipient where additional information may be obtained, and that
13 participation in the local proceeding is a prerequisite to the right to take any
14 subsequent appeal. This notice shall be sent by the ZA, while all associate
15 costs shall be borne by the applicant through any application fees, as
16 established by the Selectboard. The ZA shall by personal attestation certify
17 to the mailing and shall obtain a certificate of mailing from the post office.
18 Upon issuance of the permit approved by operation law, the ZA shall post the
19 permit for a 15-day appeal period, if applicable.
20

- 21 2) No defect in the form or substance of any required public notice under this section
22 shall invalidate the action of the DRB where reasonable efforts have been made to
23 provide adequate posting and notice. However, the action shall be invalid when the
24 defective posting or notice was materially misleading in content. If an action is ruled
25 to be invalid by the DRB, the DRB shall provide new posting and notice, hold a new
26 hearing, and take a new action.
27

28 **B) Meeting and Hearing Procedures.**

29

- 30 1) In accordance with §4461 of the Act, all meetings and hearings of the DRB,
31 except for deliberative sessions, shall be open to the public.
32
- 33 2) For the conduct of any meeting or hearing, and the taking of any action, a
34 quorum shall be not less than the majority of members of the DRB.
35
- 36 3) In any public hearing there shall be an opportunity for each person wishing to
37 achieve status as an interested person to demonstrate that the criteria set forth
38 under §4465 of the Act are met. The DRB shall keep a record of the name,
39 address, and participation of each of these persons.
40
- 41 4) In accordance with §§4464(b), 4468 of the Act; the DRB may recess a hearing
42 on any application or appeal pending the submission of additional information,
43 provided that the next hearing date, the time, and place is announced at the
44 hearing or the hearing is re-warned according to Section 2.4(A).
45

1 **C) Pre-Hearing Conference.** The DRB is hereby authorized to conduct a public pre-
2 hearing conference with the applicant or appellant under such rules as the Board
3 shall establish in its Bylaws and Rules of Procedure. The purpose of such pre-
4 hearing conferences shall be to clarify the issues in controversy, to identify
5 documents and information to be submitted as evidence at the hearing, and to
6 circumvent unnecessary delays that would interfere with an expeditious public
7 hearing process.
8

9 **D) Hearings on the Record.**

- 10
11 1) In accordance with §§4420, 4471(b) of the Act; the Town of Montgomery has
12 adopted the Municipal Administrative Procedures Act (MAPA) 24 V.S.A., All
13 applications and appeals heard by the DRB shall be on record. Accordingly:
14 a) Such hearings shall be considered “contested hearings” as defined under the
15 MAPA, to be conducted in accordance with the requirements of the MAPA.
16 b) The DRB shall comply with the provisions of 12 V.S.A. §61(a) regarding
17 conflicts of interest.
18 c) Public notice of hearings shall be provided in accordance with Section 2.4(A).
19 d) The chair or vice chair shall preside over the hearing; in their absence the
20 DRB shall elect a temporary chair. The presiding officer shall cause the
21 proceeding to be recorded.
22 e) All testimony of parties and witnesses shall be made under oath or
23 affirmation.
24 f) The rules of evidence as applied in civil cases in superior court shall be
25 followed. Irrelevant, immaterial or unduly repetitious evidence shall be
26 excluded. When necessary to ascertain facts not reasonably susceptible to
27 proof under those rules, evidence not admissible under those rules may be
28 admitted if it is of a type commonly relied upon by reasonable prudent people
29 in the conduct of their affairs. 3 V.S.A. §810(1)
30 g) Requirements regarding ex parte communications shall be followed. No
31 member of the DRB shall communicate on any issue in the proceeding,
32 directly or indirectly, with any party, party’s representative, party’s counsel, or
33 any interested person in the outcome of the proceeding while the proceeding
34 is pending without additional notice and opportunity for all parties to
35 participate. All ex parte communications received by DRB members, all
36 written responses to such communications and the identity of the person
37 making the communication shall be entered into the record.
38 h) Members of the DRB shall not participate in the decision unless they have
39 heard all the testimony and reviewed all the evidence submitted in the
40 hearing. This may include listening to a recording of the hearing, or reading
41 the transcripts of testimony they have missed and reviewing all exhibits and
42 other evidence prior to deliberation.
43 i) All final decisions shall be in writing and shall separately state findings of fact
44 and conclusions of law in accordance with Section 2.5 and 24 V.S.A.
45 4464(b)(1).

- 1 j) Transcripts of proceedings shall be made upon the request and payment of
2 reasonable costs of transcription by any party.
3

4 **Section 2.5: DRB Decisions**

5
6 Any action or decision of the DRB shall be taken by the concurrence of a majority of the
7 members of the DRB. In accordance with the Act 24 V.S.A. §4464(b)(1), the DRB shall
8 issue a decision within 45 days after the adjournment of the hearing. Failure to issue a
9 decision within the 45-day period shall result in deemed approval and shall be effective
10 on the 46th day upon issuance.
11

12 **Section 2.6: Appeals**

13
14 **A) Appealing Decisions/Actions of the Administrative Officer.** Any interested
15 person as defined in Article 8 herein and §4465 of the Act, may appeal any decision
16 or action taken by the ZA by filing a written notice of appeal with the DRB within
17 fifteen (15) days of such decision or act. Within sixty (60) days of receiving a notice
18 of appeal, the Board shall hold a public hearing in accordance with Section 2.4.
19

20 1) **Notice of Appeal.** A notice of appeal shall be made on the Town of
21 Montgomery's Application to the DRB and include the following information: a brief
22 description of the property with respect to which the appeal is taken, a reference to
23 the regulatory provisions applicable to that appeal, the relief requested by the
24 appellant, and the alleged grounds why the requested relief is believed proper under
25 the circumstances.
26

27 **B) Appealing Decisions of the DRB.** In accordance with §4471 of the Act, an
28 interested person who has participated in a regulatory proceeding of the DRB may
29 appeal a decision rendered by the DRB, within 30 days of such decision, by filing a
30 notice of appeal to the Vermont Environmental Court. Appeals to Environmental
31 Court shall also meet the following requirements:

- 32 1) "Participation" in a DRB proceeding shall consist of offering, through oral or
33 written testimony, evidence of a statement of concern related to the subject of
34 this proceeding.
35 2) For all proceedings of the DRB that are on the record, as identified under Section
36 2.4(C), appeals to the Environmental Court shall be taken on the record in
37 accordance with the Rules of Civil Procedure.
38 3) The notice of appeal shall be filed by certified mailing, with fees, to the
39 Environmental Court and by mailing a copy to the Municipal Clerk, or the ZA if so
40 designated, who shall supply a list of interested persons (including the applicant
41 if not the appellant) to the appellant within five (5) working days. Upon receipt of
42 the list of interested persons, the appellant shall by certified mail, provide a copy
43 of the notice of appeal to every interested person. If any one or more of those
44 persons are not then parties to the appeal, upon motion they shall be granted
45 leave by the court to intervene.
46

Section 2.7: Penalties

- A) Violations of these Regulations shall be regulated as prescribed in §§4451, 4452 and 4470(b) of the Act. Any person who violates these Regulations shall be fined not more than two hundred (200) dollars for each offense. Each day that a violation is continued shall constitute a separate offense. The alleged offender shall be given at least seven (7) days' notice by certified mail that a violation exists and opportunity to cure it.
- B) An action, injunction, or other enforcement proceeding relating to the failure to obtain or comply with the terms and conditions of a zoning permit or DRB approval may be instituted within 15 years from the date the alleged violation first occurred and not thereafter. The burden of proving the date the alleged violation first occurred shall be on the person against whom the enforcement action is instituted.
- C) Any structure of any type started without a permit may be removed at the owners' or builders' expense upon order of the Environmental Division of the Superior Court.

Map 3(A)

Article 3: Establishment of Zoning Districts and Official Zoning Map

Section 3.1: Establishment of Zoning Districts

For the purposes of these Regulations the Town is divided into the following Zoning Districts:

- Village I
- Village II
- Rural Residential
- Conservation I
- Conservation II
- Hazard Area Overlay District
- River Corridor Area

A) Zoning District Purpose Statements.

- 1) **Village Districts.** The Village Districts encompass the historic village areas of each of Montgomery's Village Centers – Montgomery Village and Montgomery Center. The Districts are intended to further growth and economic development in keeping with Montgomery's traditional village character. Consistent with the historic development pattern, development is allowed at higher densities and intensities in the village areas. Historic buildings are a significant contributor to village character and are encouraged to be preserved and adapted for re-use. New development should be consistent in siting and scale with the surrounding historic structures in the villages. Enhancing the pedestrian friendly streetscape is a high priority in the village areas.

Figure 3(A)

Traditional Village Character in Montgomery

- Small lots
- Shallow setbacks
- Mixed residential, commercial and public uses
- Historic architecture
- Pedestrian accessibility
- Slow traffic

The **Village 1 District** is used for mixed use development consistent with village character along the main corridors, including single and multi-family residential, commercial and public uses. The District provides access to municipal and community services, including water supply. Enhancing the pedestrian friendly streetscape is a high priority in the Village 1 District.

The **Village II District** encompasses areas of Montgomery Village and Montgomery Center outside the mixed use core. The density of development remains consistent with the Village I District; however, uses transition to primarily residential. Enhancing pedestrian accessibility is also important in the Village II District.

1

Metes and Bounds Description of Village 1 District at Montgomery Center and Montgomery Village

Montgomery Center: Beginning at a point 200' south of the junction of Hazen's Notch Road (Town Road 58), and South Main Street, (Vt. Rte. 118), proceed west to the centerline of the South Branch of the Trout River, then follow downstream of said Branch to the confluence with the Trout River, then follow the centerline of said River downstream to the nearest point West of the Recreation Center right-of-way, then turn East across North Main Street (Vt. Rte. 118), to the centerline of said right-of-way, then continue East along the centerline of said right-of-way for a distance of 200', then turn southerly and follow parallel with and 200' from the centerline of North Main Street to a point 200' west of Mountain Road (Rte. 242), then turn north and follow parallel with and 200' from the centerline of Mountain Road to the centerline of Hart Road (Town Road 38), then turn easterly and follow the centerline of Hart Road to Mountain Road then continue in the same direction across Mountain Road to a point 200' beyond the centerline of said Road, then turn southerly and follow parallel with and 200' from the centerline of Mountain Road to the centerline of the Trout River, then turn easterly and follow the centerline of said River to a point due North of the junction of Hazen's Notch Road and Regan Road (Town Road 28), then turn south and cross Hazen's Notch Road to the centerline of Regan Road, then follow the centerline of Regan Road to a point 200' southerly of the centerline of Hazen's Notch Road, then turn westerly and follow parallel with and 200' from the centerline of Hazen's Notch Road to the point of beginning on South Main Street

Montgomery Village: Beginning at a point on Vincent's Bridge Road 200 feet south of the center line of North Main Street, turn westerly and follow parallel and 200 feet of North Main to the intersection of the Ryea/Carpenter property line , proceed southwesterly along said property line to the centerline of the Trout River, then tum westerly and follow the centerline of said River to the confluence with Black Falls Brook, then turn east and follow the centerline of said Brook upstream to a point 200' southwest of Fuller Bridge Rd., (Town Rd. 1), then turn northerly and follow 200' from and parallel with the centerline of said Road to a point 200' beyond the junction of Fuller Bridge Road, and Green Mountain Rd., (Town Rd. 5), then turn northeasterly across Fuller Bridge Road to a point 200' beyond the centerline of said Road, then turn southeasterly and follow 200' from and parallel with the centerline of said road to a point 200 feet northeast of the intersection of North main street and fuller bridge road then follow 200 feet from and parallel the center line of north main street and the point of beginning.

2
3
4
5
6
7

Metes and Bounds Description of Village II District at Montgomery Center and Montgomery Village

Montgomery Center: Beginning at a point on the Recreation Center and Center Cemetery property line which is 200' northeasterly of the centerline of North Main Street (Vt. Rte. 118), proceed northeasterly along said property line for a distance of approximately 420', then turn on a bearing of North 82 degrees East for a distance of 2,400' to the centerline of Purrier Farm Road (Town Road 14), then turn southeasterly and follow the centerline of said Road to the centerline of Mountain Road (Vt. Rte. 242), then turn southwesterly and follow the centerline of said Road to a point that is due east of the centerline of Hart Road (Town Road 38), then turn westerly and follow the V-1 district boundary line to the point of beginning.

Montgomery Village:

- a. Beginning at a point in the centerline of North Main Street (Vt. Rte. 118), at the junction with Vincent Bridge Road (Town Road 41), proceed southwesterly along the centerline of said Road to the centerline of the Trout River, then turn westerly and follow the centerline of said River to the V-1 District boundary line, then turn northeasterly and follow said property line to the centerline of North Main Street, then turn easterly and follow the centerline of said street to the point of beginning.
- b. Beginning at a point in the centerline of the Trout River at the confluence with Black Falls Brook, proceed northwesterly downstream along the centerline of said River to the Jewett property line, then turn northeasterly and follow along said property line to Fuller Bridge Road (Town Road 1), then continue northeasterly across said road and follow along the Jewett property line for 400' to the Crane property line, then continue in the same direction on a bearing of approximately North 52 degrees East across the Crane property and Bosley property to Bosley's northern property line, then turn easterly along Bosley's property line to Green Mountain Road (Town Road 5), then diagonally across said road to the MacLeod-Murphy property line, then turn southeasterly and follow said property line to the Black Falls Brook, continue in the same direction across said Brook to the centerline of North Hill Road (Town Road 7), then turn southwesterly and follow the centerline of said Road to the V-1 District boundary line, then turn northwesterly and follow said boundary line around to the point of beginning.

2) Rural Residential District. The Rural Residential District provides for rural residential and business land uses at lower densities than the village centers to preserve the traditional working landscape and to maintain Montgomery's rural character. Rural residential, small-scale commercial and light industrial land uses are balanced with the natural landscape of forests, rivers and streams, meadowlands and agricultural fields. Home-based occupations and industries are common throughout the Rural Residential District. The Rural Residential District encompasses the areas outside of the village centers along Class 3 town roads and state highways (excluding those portions of Rt. 58 east of Amadon Road), and including those lands comprising smaller forest blocks in town where natural resource concerns are not a primary concern (as in the Conservation I & II Districts described below).

Figure 3(B)

Rural Character in Montgomery

- The natural landscape of forests, rivers and streams, meadowlands and agricultural fields dominate the landscape.
- Development is sited to limit the fragmentation of forest blocks and agricultural fields.
- Development is sited to fit in with the existing topography and landscape.
- Farms and agricultural support structures (i.e. barns, silos) are prevalent.
- Resource based and agriculturally related industries may exist but are sited with adequate landscaping and buffering (i.e. sawmills, slaughter houses, earth resource extraction).
- Home based businesses are common.

3) Conservation I District. The purpose of the Conservation I District is to preserve the ecological, cultural and economic value and function of forest blocks and the natural resources they encompass as detailed in the current Montgomery Town Plan. These include: To maintain healthy, viable populations of native wildlife; To support active forest management as a means of supporting the local wood products industry; To enhance outdoor recreation valued by residents and visitors alike; To provide for the protection of source waters which feed rivers and streams, including important aquatic habitats; And to maintain the aesthetics associated with the agricultural and forested landscape. Those lands in Conservation I are as shown on the official town zoning map.

4) Conservation II District. The Conservation II District consists of forest blocks at 1,600 feet in elevation and above. Placing restrictions on development is essential due to the sensitive resources located there, including wildlife habitat, steep slopes, shallow soils, headwaters, and the potential for development to affect erosion or flood hazards downstream. Protection of these areas also serves the ecological, cultural and economic benefits associated with the rural character as described above. Those lands in Conservation II are as shown on the official town zoning map.

1
2 **5) Hazard Area Overlay District.** The purpose of this overlay district is to prevent
3 increases in flooding caused by development in flood hazard areas, to minimize
4 future public and private losses due to flood, and to promote the public health,
5 safety, and general welfare. Designation of this area is also required for
6 continued participation in the National Flood Insurance Program (NFIP) and is
7 regulated under Article 8 of these Regulations. Included are all areas in
8 Montgomery identified as areas of Special Flood Hazard on the National Flood
9 Insurance maps located at the Town Office building.

10
11 **6) River Corridor Area Overlay.** The River Corridor consists of a floodplain
12 corridor, including the stream and land adjacent to the stream, the dimensions of
13 which are determined using physical relations between the channel width and the
14 meander belt width. It identifies an area where stream processes may occur that
15 enable the stream to re-establish and maintain a stable slope and dimensions
16 over time. A stable stream slope occurs when a channel reaches a certain
17 length. This length is accommodated by a corridor of floodplain area described
18 as the meander belt. The River Corridor is a calculated belt width-based corridor
19 where erosion is minimized when stream equilibrium conditions are achieved.
20 River Corridor area boundaries attempt to capture lands most vulnerable to
21 fluvial erosion in the near term and indicate the type, magnitude, and frequency
22 of fluvial adjustments anticipated during flood events. The area can be mapped,
23 and is based on quality-assured fluvial geomorphic data (i.e., data that describe
24 the physical form and process of a riverine system). The River Corridor is
25 determined on the most current River Corridor Protection Area Map published by
26 the Vermont Agency of Natural Resources (ANR) which are hereby adopted by
27 reference and declared to be part of these regulations. A modification of the
28 River Corridor Map may be made upon application of the Selectboard to the
29 Department of Environmental Conservation (DEC) pursuant to the DEC
30 publication Flood Hazard Area And River Corridor Protection Procedure, Section
31 5(c)(2). Application may be made to account for geomorphic and other physical
32 characteristics found in the field but not accounted for in the River Corridor Map.

33 34 **Section 3.2: Official Zoning Map**

35
36 The Official Zoning Map, signed by the Selectboard and attested to by the Town Clerk,
37 located in the Town Clerk's Office, shall be the final authority as to the Zoning status of
38 any lands or waters in the Town regardless of any copies made. The Official Zoning
39 Map incorporates by reference the most recent Flood Insurance Rate Maps published
40 by the Federal Emergency Management Agency and the current River Corridor map,
41 published by the Vermont Department of Conservation, these maps are declared to be
42 a part of these regulations. A copy of the Zoning Map is included at the beginning of
43 Article 3.

Section 3.3: Interpretation of Zoning District Boundaries

- A) Any interpretation of Zoning District boundaries by the ZA may be appealed to the DRB for a declaratory ruling.
- B) Where a District boundary line divides a lot of record at the time such line is adopted, the Regulations and uses for the less restricted part of such lot shall extend not more than fifty (50) feet into the more restricted part, provided the lot has frontage on a street in the less restricted District.
- C) Existing lots located in 2 districts may be subdivided according to the requirements of the least restrictive district of the new lot. Development within the new lot is regulated according to the district where development is to occur.
- D) District boundaries shown within the lines of roads and streams are deemed to follow the center lines. Where boundaries follow lot lines, such lot lines shall be deemed to be the boundaries. Where property owner names are used, the description “now or formerly” shall be understood.

1 **Article 4: Zoning Permits, Zoning Districts and Allowed Land**
2 **Development**

3
4 **Section 4.1: Zoning Permits**
5

6 **A) Applicability.** No land development, as defined in these Regulations and
7 §4303(10) of the Act, may be commenced until a valid zoning permit is issued by the
8 ZA that specifically authorizes the action, unless exempted below. Land
9 development includes but is not limited to:

- 10 • Construction, assembly or placement of a new structure.
11 • Any repair, improvement, reconstruction or structural alteration of a structure.
12 • Initiating new use or changing or expanding the use of land or structures thereon
13 (See Table 4(A)).
14 • The division of a parcel into two or more parcels (subdivision of land).
15 • Ponds (See Section 6.9).
16 • Earth resource extraction (new operations or expansions) (See Section 7.3).
17 • Fences (See Section 6.4)
18 • Signs (See Section 6.11).
19

20 **1) Town Exemptions.** The following land development activities specifically do not
21 require a zoning permit unless located in the Special Flood Hazard Area (SFHA),
22 River Corridor (See Article 8) or changing footprint or water requirements?

- 23 a) Any repair, improvement, reconstruction or structural alteration of a
24 structure, the cost of which is under 50 percent of assessed value of the
25 structure either before the improvement or repair is started or, if the structure
26 has been damaged and is being restored to the previous footprint, before the
27 damage occurred;
28 b) Landscaping, including small shallow ponds or ground depressions;
29 c) Certain signs (See Section 6.11);
30 d) Boundary lot adjustments provided each lot remains conforming or does not
31 increase an existing degree of non-conformity;
32 e) Yard sales provided they do not last longer than three (3) consecutive days.
33 f) Road, sidewalk, bridge, infrastructure, and utility improvements and
34 maintenance, and related appurtenances within existing public rights-of-way;
35 g) Minor grading and excavation incidental to an approved use, including:
36 • Road and driveway maintenance (e.g., including culvert replacement
37 and resurfacing);
38 • Cemetery maintenance; and
39 • Lawn and yard maintenance (e.g., for gardening or landscaping).
40

41 **2) Statutory Exemptions.** In accordance with the Act [§4413], no municipal zoning
42 permit or approval under these Regulations shall be required for:

- 43 a) Required Agricultural Practices (RAPs) and Best Management Practices
44 (BMPs) as adopted in rules by the Agency of Agriculture (see
45 www.vermontagriculture.com), including farm structures, as defined by the

1 Secretary of Agriculture, Food and Markets in accordance with 24 V.S.A.
2 §4413. However, written notification, including a sketch plan of the farm
3 structure showing setback distances from road rights-of-way, property lines,
4 and surface waters shall be made to the ZA prior to any construction as
5 required under the RAPs. Agricultural practices that are governed by the
6 RAPs include, but are not limited to the following:

- 7 i) The confinement, feeding, fencing, and watering of livestock.
- 8 ii) The handling of livestock wastes and by-products.
- 9 iii) The collection of maple sap and production of maple syrup.
- 10 iv) The preparation, tilling, fertilization, planting, protection, irrigation and
11 harvesting of crops.
- 12 v) The ditching and subsurface drainage of farm fields and the construction
13 of farm ponds.
- 14 vi) The stabilization of farm field stream banks constructed in accordance
15 with the United States Department of Agriculture Natural Resources
16 Conservation Service standards and specifications or other standards
17 approved by the Commissioner.
- 18 b) Acceptable Management Practices (AMPs) for silviculture (forestry) as
19 defined by the Commissioner of Forests, Parks, and Recreation, pursuant 24
20 V.S.A. §4413.
- 21 c) Public utility power generating plants and transmission facilities that are
22 regulated by the Vermont Public Service Board [under 30 V.S.A. §248],
23 including net-metered wind generation facilities and solar panels.
- 24 d) Hunting, fishing or trapping on public or private land as specified by the state
25 [under 24 V.S.A. §2295]. This excludes facilities that may support such
26 activities, such as firing ranges, rod and gun clubs, and fish and game clubs,
27 which are subject to these Regulations.

28
29 **B) Zoning Permit Applications.** Montgomery Zoning Permit Application forms may
30 be obtained from the Town Office or Town Website and submitted to the ZA.
31 Applicants shall provide all information requested on the form, including a plot plan
32 showing the location of existing and proposed development, the application fee, and
33 such other information as the ZA may reasonably require to determine compliance
34 with these Regulations. An application shall not be deemed received until all
35 applicable information is submitted to the ZA.
36

37 **C) Zoning Permit Public Notice and Issuance Requirements.** Public notice and
38 issuance requirements must be met before a zoning permit may be issued according
39 to Section 2.2.
40

41 **D) Zoning Permit Application Review and Referral.** Before issuing a zoning permit,
42 the ZA shall confirm that the proposal is in conformance with the Regulations, and
43 may request any further information from the applicant which may be necessary to
44 do so. For applications that require approval from the DRB, the ZA shall refer the
45 application to the DRB for review and action. No zoning permit shall be issued by

the ZA for any use or structure which requires the approval of the DRB until such approval has been obtained.

- 1) Permit applications within the Flood Hazard Area, (FHA) must be referred to the ANR for review and no zoning permit shall be issued until a response has been received from ANR, or the expiration of 30 days following the submission of the application to ANR.

E) Temporary Permits. Temporary permits may be issued by the ZA for a period not exceeding one (1) year for non-conforming uses incidental to construction projects, provided such permits are conditioned upon agreement by the owner to remove the structure or discontinue the use upon expiration of the one (1) year time period. Such permit may be renewed upon application for an additional period not exceeding one year.

Section 4.2: District Land Use and Development

Land uses and development are designated as permitted, conditional, exempt, or prohibited depending on the Zoning District they are located in according to Table 4(A) (Pg. 24-25). Conditional uses require conditional use approval from the DRB before the ZA may issue a zoning permit. Alterations or minor changes to an existing conditional use approval that are not a “change of use” may be permitted by the ZA as a permitted use under these regulations.

Village I

Permitted Uses:

- a. accessory dwelling (Section 7.1)
- b. single and two family dwelling
- c. camp
- d. accessory structure/use
- e. fence (Section 6.4)
- f. signs (Section 6.11)
- g. family child care home/facility (Section 7.4)
- h. group home (Section 7.5)
- i. business services, personal and professional
- j. bed and breakfasts

Minimum Lot Dimensions:

- a. size 10,000 square feet
- b. frontage 75
- c. depth 75 feet
- d. front yard 10 feet from edge of r.o.w.
- e. side yard 10 feet from lot line
- f. rear yard 20 feet from lot line
- g. See Section 4.3 (A)(2) for corner lots

Conditional Uses:

- a. dwelling, multiple-family
- b. lodging establishment
- c. home business (Section 7.6b)
- d. fuel/service station
- e. light industry

- 1 f. mobile home park (7.8)
- 2 g. restaurant
- 3 h. retail establishment
- 4 i. agribusiness
- 5 j. care facility
- 6 k. social uses, including clubs, non-profits & religious institutions
- 7 l. planned unit development (Section 5.2)
- 8 m. ponds (Section 6.9)
- 9 n. public uses and facilities (Section 7.9)
- 10 o. recreation indoor
- 11 p. recreation outdoor
- 12 q. motor vehicle sales & service

14 **Exempt:**

- 15 a. home occupation (Section 7.6 a)
- 16 b. agricultural structure and use (Section 4.1.2.a.)
- 17 Note: If not listed above, it's considered Prohibited. (Also listed in Table 4(A) - Allowed
- 18 Land Uses and Development).

20 **Prohibited:**

- 21 a. campground (Section 7.2)
- 22 b. earth resource extraction (Section 7.3)
- 23 c. salvage yard (Section 7.10)
- 24 d. Non-qualifying Hydronic Heaters (Section 6.13)".

25 **Village II**

27 **Permitted Uses:**

- 28 a. accessory dwelling (Section 7.1)
- 29 b. one-family or two-family dwellings;
- 30 c. camp
- 31 d. accessory structure/use
- 32 e. fence (Section 6.4)
- 33 f. signs (Section 6.11)
- 34 g. family child care home/facility (Section 7.4)
- 35 h. group home (Section 7.5)
- 36 i. hydronic heaters (Section 6.13)

Minimum lot dimensions:

- a. size 10,000 square feet
- b. frontage 75 feet
- c. depth 75 feet
- d. front yard 10 feet from edge of r.o.w.
- e. side yard 10 feet from lot line
- f. rear yard 20 feet from lot line
- g. See Section 4.3 (A)(2) for corner lots

38 **Conditional Uses:**

- 39 a. dwellings, multiple-family
- 40 b. bed and breakfasts
- 41 c. home business (Section 7.6 b)
- 42 d. agribusiness
- 43 e. business services, Personal and Professional

- f. fuel/service station
- g. light industry
- h. lodging establishment
- i. mobile home park (Section 7.8)
- j. restaurant
- k. retail establishment
- l. care facility
- m. social uses including clubs, non-profits & religious institutions
- n. planned unit development (Section 5.2)
- o. ponds (Section 6.9)
- p. public uses and facilities (Section 7.9)
- q. recreation indoor
- r. recreation outdoor
- s. motor vehicle sales & service

Exempt:

- a. home occupation (Section 7.6 a)
- b. agricultural structure and use (Section 4.1.2.a.)

Note: If not listed above, it's considered Prohibited. (Also listed in Table 4(A) - Allowed Land Uses and Development)

Village II – Con'd

Prohibited:

- a. Non-qualifying Hydronic Heaters (Section 6.13)".
- b. campground (Section 7.2)
- c. earth resource extraction (Section 7.3)
- d. salvage yard (Section 7.10)

Rural/Residential

Permitted Uses:

- a. accessory dwelling (Section 7.1)
- b. one-family or two-family dwellings;
- c. camp
- d. accessory structure/use
- e. signs
- f. family child care home/facility (Section 7.4)
- g. group home (Section 7.5)
- h. fence (Section 6.4)
- i. hydronic heaters (Section 6.13)

Minimum lot dimensions:

- a. size 4 acres
- b. frontage 300 feet
- c. depth 200 feet
- d. front yard 25 feet from edge of r.o.w.
- e. side yard 50 feet from lot line
- f. rear yard 50 feet from lot line
- g. See Section 4.3 (A)(2) for corner lots.

Conditional Uses:

- a. dwelling, multiple-family
- b. Bed and Breakfasts
- c. home business (Section 7.6b)
- d. agribusiness
- e. business services, Personal and Professional
- f. campground (Section 7.2)
- g. earth resource extraction (Section 7.3)
- h. light industry
- i. lodging establishment
- j. mobile home park (Section 7.8)
- k. retail establishment
- l. care facility
- m. social uses, including clubs, non-profits & religious institutions
- n. salvage yard (Section 7.10)
- o. planned unit development (Section 5.2)
- p. ponds (Section 6.9)
- q. public use facilities (Section 7.9)
- r. recreation, indoor
- s. recreation outdoor
- t. motor vehicle sales and service

1
2 **Rural Residential – Con’d**

3
4 **Exempt:**

- 5 a. home occupation (Section 7.6 a)
6 b. agricultural structure and use (Section 4.1 a.2.)
7

8 Note: If not listed above, it’s considered Prohibited. (Also listed in Table 4(A) - Allowed
9 Land Uses and Development)
10

11 **Prohibited:**

- 12 a. fuel service station
13

14 **Conservation I (Under 1600 Feet Elevation)**

15
16 **Permitted Uses:**

- 17 a. accessory use or building
18 b. signs (Section 6.11)
19 c. accessory dwelling (Section 7.1b)
20 d. fence (Section 6.4)
21 e. hydronic heaters (Section 6.13)
22

Minimum lot dimensions:

- a. size 10 acres
b. frontage 300 feet
c. depth 300 feet
d. front yard 50 feet from edge of r.o.w.
e. side yard 50 feet from lot line
f. rear yard 50 feet from lot line

23 **Conditional Uses:**

- 24 a. dwelling, single-family
25 b. home occupation (Section 7.6 a)
26 c. home business (Section 7.6 b)
27 d. camp
28 e. campground (Section 7.2)
29 f. earth resource extraction (Section 7.3)
30 g. planned unit development (Section 5.2)
31 h. ponds (Section 6.9)
32 i. recreation outdoor
33 j. family child care home/facility (Section 7.4)
34 k. group home (Section 7.5)
35

g. See Section 4.3 (A)(2) for corner lots

36 **Exempt:**

- 37 a. agriculture structure and use (Section 4.1.2.a.)
38
39
40
41
42

Conservation I – Con'd

Prohibited:

- a. dwelling, multi-family
- b. dwelling, two family
- c. Bed & Breakfasts
- d. agribusiness
- e. business services, personal and professional
- f. fuel/service station
- g. light industry
- h. mobile home park (Section 7.8)
- i. lodging establishment
- j. restaurant
- k. retail establishment
- l. care facility
- m. social uses, including clubs, non-profits & religious institutions
- n. public use facilities (Section 7.9)
- o. recreation, indoor
- p. motor vehicle sales & service
- q. salvage yards

Note: If not listed above, it's considered Prohibited. (Also listed in Table 4(A) - Allowed Land Uses and Development)

Conservation II (1600 Feet Elevation and Higher)

Permitted Uses:

- a. signs (Section 6.11)

Conditional Uses:

- a. fences – non agricultural (Sec. 6.4)
- b. accessory structure/use
- c. camps
- d. hydronic heaters (Section 6.13)

Minimum lot dimensions:

- a. size 30 acres
- b. frontage 400 feet
- c. depth 300 feet
- d. front yard 50 feet from edge of r.o.w.
- e. side yard 100 feet from lot line
- f. rear yard 100 feet from lot line

Exempt:

- a. agricultural structure

Note: If not listed above, it's considered Prohibited. (Also listed in Table 4(A) - Allowed Land Uses and Development)

1 **Conservation II – Con’d**

2
3 **Prohibited:**

- 4
5 a. dwelling, multi-family
6 b. single and two family dwelling
7 c. home occupation (Section 7.6 a)
8 d. home business (Section 7.6 b)
9 e. commercial dwelling
10 f. family child care home/facility (Sections 7.4)
11 g. group home (Sections 7.5)
12 h. Bed & Breakfasts
13 i. agribusiness
14 j. business services, personal and professional
15 k. campground (Section 7.2)
16 l. earth resource extraction (Section 7.3)
17 m. fuel/service station
18 n. light industry
19 o. lodging establishment
20 p. mobile home park (Section 7.8)
21 q. restaurant
22 r. retail establishment
23 s. accessory structure/use
24 t. care facility
25 u. social uses, including clubs, non-profits & religious institutions
26 v. salvage yard (Section 7.10)
27 w. planned unit development (Section 5.2)
28 x. ponds (Section 6.9)
29 y. public uses and facilities (Section 7.9)
30 z. recreation indoor
31 aa. recreation outdoor
32 bb. motor vehicle sales & service

4
 5 Note: These tables are a summary. Use definitions are defined in Article 9 (Pg. 67).

Section 4.3: Density and Dimensional Standards for Lots and Structures

A) Subdivision Lot Standards.

- 1) **Lot Size.** Lots shall comply with the minimum lot size requirements in Table 4(B).
- 2) **Frontage.** Lots shall either comply with the minimum frontage requirements in Table 4(B), or have been approved by the DRB as an access by right-of way in accordance with Section 6.10. Lots which abut more than one street shall, at minimum, meet the required lot frontage requirement on one street and the meet the required lot depth requirement on the other street.
- 3) **Public Purpose Exemption.** The only exception is for lots acquired for a public purpose, which are exempt from the minimum lot size and frontage requirements.

Table 4(B) Dimensional Standards for Structures and Lots

	V 1	V 2	Rural Res.	Conv. I	Conv. II
Minimum Lot Area	10,000 SF	10,000 SF	4 AC	10 AC	30 AC
Frontage¹	75 feet	75 feet	300 feet	300 feet	400 feet
Lot Depth	75 feet	75 feet	200 feet	300 feet	300 feet
Setback, Front Yard	10' from R/W	10' from R/W	25' from R/W	50' from R/W	50' from R/W
Setback, Side Yard	10' from P/L	10' from P/L	50' from P/L	50' from P/L	100' from P/L
Setback, Rear Yard	20' from P/L	20' from P/L	50' from P/L	50' from P/L	100' from P/L

In all districts, any lot 10 Acres and larger shall have a minimum frontage of 300 feet.

Note: Driveways and fences are exempt from District setback requirements; see Section 6.10 and Section 6.4.

- ### B) Setbacks.
- The setbacks for each District are those allowed as a permitted use. In each District a lesser setback may be approved by the DRB as a waiver, pursuant 24 V.S.A. Section 4414(8) upon a finding that:
- 1) The proposed setback will not unreasonably interfere with a neighboring property's privacy and quiet enjoyment; and
 - 2) A reduced setback is necessary for the project because of geographic conditions of the lot; and
 - 3) A reduced setback is in keeping with the purpose of the District as defined in these bylaws and the Town Plan.

C) Principal Buildings on Lots. There shall be only one principal building on a lot, unless approved by the DRB as a PUD.

D) Principal Uses on Lots. There shall only be one principal use on a lot, except that the DRB may approve as a conditional use more than one principal use within one principal building if all uses are allowed within the District.

E) Obstruction of View on Corner Lots. On all corner lots, there shall be no obstruction to vision between the height of three (3) feet and ten (10) feet above the average grade of each street within the triangular area formed by the intersection of two street property lines and a third line joining them at points twenty five (25) feet away from their intersection (See Figure 4(A)). The DRB may waive this requirement in the Village I District under conditional use review.

Figure 4(A)

F) Structure Height. No structure shall exceed a height of thirty five (35) feet above ground level, except for chimneys, antenna structures, windmills with blades less than twenty (20) feet in diameter, and rooftop solar collectors less than ten (10) feet above the roof line which are mounted on complying structures. Height will be measured as the vertical distance from the mean level of the finished grade of the building to the ridge-line or deck-line of the roof (Figure 4(B)). Under conditional use review, the DRB may authorize other exceptions as long as they are unoccupied, such as steeples and cupolas, which do not disrupt the surroundings nor create a hazard.

Figure 4(B) Measuring Height

1
2 **Article 5: Development Approvals**

3
4 **Section 5.1: Conditional Use Approval**

5
6 **A) Applicability.** The following uses require conditional use approval from the DRB:

- 7
8 1) Initiating a new use that is listed in Table 4(A) as conditional (C).
9 2) Changing an existing use to a different use that is listed as conditional (C) in
10 Table 4(A) (Pg. 24-25).
11 3) Expanding or modifying an existing conditional use so that it no longer conforms
12 to its existing conditional use approval. (Alterations or minor changes to an
13 existing conditional use permit, that are not a “change of use” may be permitted
14 by the ZA as a permitted use under these regulations).
15 4) Nonconformities (in some cases, see Section 6.6)
16 5) Access by right of way to lots without frontage on a public road or waters (see
17 Section 6.10(D)).
18 6) Any excavation or fill involving 100 or more cubic yards of material, or which the
19 ZA determines may cause a change in the rate or direction of drainage to the
20 detriment of neighboring properties (See Section 6.2).
21 7) Exceptions to the maximum height regulation (See Section 4.3(F)).
22 8) The approval of more than one principal use within one principal building (See
23 Section 4.3(C)).
24 9) Any other land development that requires conditional use approval according to
25 these Regulations.
26

27 **B) Purpose.** Conditional use approval requires compliance with standards addressing
28 the impact of proposed land uses on adjacent properties, the neighborhood or
29 district in which the project is located, and the community at large. Standards and
30 conditions emphasize considerations to identify, avoid, and/or mitigate off-site
31 impacts of a proposed project. Conditional use approval also considers a building’s
32 and site design’s consistency with the purpose and character of the district within
33 which it is located. Standards and conditions emphasize those considerations
34 related to internal layout of the site, its physical design and appearance as viewed
35 from off-site, and the functional integration of the site with surrounding properties
36 and uses.
37

38 **C) Application Requirements.** A complete application for conditional use approval
39 shall include all the information requested on the Montgomery DRB Project
40 Application Form, the requirements in Table 5, and the application fee.
41

42 **D) Public Notice and Issuance Requirements.** The DRB shall issue a written
43 decision following a duly noticed public hearing according to Section 2.4 and 2.5.
44

1 **E) Review Standards.** The DRB may grant conditional use approval only upon finding
2 that the proposed development shall not result in an undue adverse effect on any of
3 the following:
4

5 **1) The capacity of existing or planned community facilities.** The DRB shall
6 consider the demand for community services and facilities resulting from the
7 proposed development, and determine whether that demand will exceed the
8 existing or planned capacity of existing facilities or services. In making such a
9 determination, the DRB will consider any capital program or budget in effect at
10 the time of application.
11

12 **2) The character of the neighborhood area or district affected.** The DRB shall
13 consider the location, scale, type, density, and intensity of the proposed
14 development in relation to the character of area likely to be affected by the
15 proposed development, as defined by the purpose(s) of the zoning district(s)
16 within which the project is located and specifically stated policies and standards
17 of the Montgomery Town Plan.
18

19 **3) Traffic on roads and highways in the vicinity.** The DRB shall consider the
20 projected impact of traffic resulting from the proposed development on the
21 capacity, safety, efficiency and use of affected roads, bridges, and intersections.
22 A traffic impact study may be required.
23

24 **4) Maximum safety of vehicular and pedestrian circulation between the site**
25 **and the street network.** Particular attention shall be given to visibility at
26 intersections, to traffic flow and control, to pedestrian safety and convenience,
27 and to access in case of emergency.
28

29 **5) Adequacy of circulation, parking, and loading facilities.** Particular
30 consideration shall be given to the effect of noise, glare or odors on adjoining
31 properties and state and town highways. Adequacy of provisions for erosion
32 control, runoff, refuse removal, service areas, and snow removal shall be
33 considered.
34

35 **6) Conformance with applicable General Regulations and Specific Standards**
36 **in Article 6 and 7.**
37

38 **7) Other Town bylaws in effect.** No development shall be approved in violation of
39 existing municipal bylaws and ordinances.
40

41 **8) The utilization of renewable energy resources.** The DRB shall consider
42 whether the proposed development will interfere with the sustainable use of
43 renewable energy resources, including the existing and future availability of and
44 access to such resources on adjoining properties.
45
46

1 **F) Conditions.** The DRB shall have the power to impose reasonable conditions and
2 safeguards to avoid an undue adverse effect on the standards above, including but
3 not limited to, the following conditions:

- 4 1) The DRB may require project phasing or improvements necessary to
5 accommodate the proposed development to ensure that the demand for facilities
6 or services does not exceed existing or planned capacity.
- 7 2) The DRB may limit the scale or dimensions of the proposal.
- 8 3) The DRB may increase setback distances for non-residential uses which are
9 contiguous to residential uses, recreation uses, or natural areas.
- 10 4) The DRB may limit the hours of operation.
- 11 5) The DRB may limit outdoor storage of materials, goods, and equipment.
- 12 6) The DRB may require that outdoor storage of or work associated with goods,
13 parts, supplies, vehicles or machinery is inside a building or behind screening.
- 14 7) The DRB may attach conditions with regard to size and location of parking areas,
15 landscaping, and signs.
- 16 8) The DRB may require roadway improvements on-site or off-site, if deemed
17 necessary, to accommodate the increased traffic associated with the
18 development. Improvements may also include traffic calming, sidewalks,
19 crosswalks and other similar improvements.

20
21 **G) Conservation Districts Standards.** In addition to the review standards set forth in
22 subsection F above, the DRB will also determine that proposed development in the
23 Conservation I & II Districts comply with the following standards when granting
24 conditional use approval.

25 1) Development will be designed and located to minimize encroachment (e.g., the
26 placement of buildings and the extension of roads, driveways and utilities) into presently
27 undeveloped, forested areas. All feasible building sites should be considered and the
28 development located as close to existing roads, other development and disturbed areas
29 as practical in order to maintain large areas of contiguous, undeveloped forest land.

30 2) Development will not result in an undue, adverse impact on significant wildlife
31 habitat as identified in the current Town Plan. The DRB will consider available
32 information and inventories of wildlife habitat, and should reference natural resource
33 inventories developed by the Conservation Commission and adopted by the Select
34 board, and may consult Vermont Department of Fish & Wildlife or other experts to
35 determine the presence of various habitats and to ensure that development is designed
36 to minimize undue adverse impacts (e.g., impacts that would significantly reduce the
37 ability of the particular habitat to continue supporting particular wildlife species that rely
38 on that habitat for specific functions).

39 3) Development will be located to avoid slopes exceeding fifteen (15) percent
40 gradient unless such development is necessary to achieve the most desirable design for
41 a site (e.g., if it would avoid impacts to other identified resources). In the event
42 development on steep slopes is allowed, clearing, excavation and filling on such lands
43 will be limited to the greatest extent practical and the preparation and implementation of
44 an erosion control plan may be required in accordance with Section 6.12. In no instance
45 will development be allowed on slopes greater than twenty-five (25) percent.
46

- 4) The division of land will be configured to minimize the fragmentation of large tracts of forest land, being as identified in the current Town Plan, and described in the most current natural resource inventory developed by the Conservation Commission and adopted by the Selectboard. Development and division of land in this district will be planned and designed to be compatible with the surrounding characteristics of the landscape, to be harmonious with wildlife habitat and the species that depend on this habitat and recognize and protect the full range of vegetative and animal habitats and species in the Town. The district includes areas which have significant geologic features, unusual or important plant and animal qualities of scientific, ecological or educational interest, steep slopes, waterways and significant wildlife habitat.
- 5) In the event that a distinct habitat supporting one or more specific species (e.g., deer wintering area, mast stand, vernal pool), or a stream or other water body, is located on the site a buffer that is adequate to protect that habitat from the impacts of development and associated activities may be required as a condition of approval.

Table 5

Application Requirements: Conditional Use and Variance Review

Application Requirements:

- Application to Montgomery DRB
- One original and one complete copy of a plot plan, drawn to scale, with north arrow and date of preparation;
- Required application fees.

The plot plan shall show the following information in sufficient detail to determine whether the proposal is in conformance with these Regulations:

	Cond. Use	Variance
The dimensions of the lot, including property boundaries	✓	✓
Location, size, shape, height of existing and proposed buildings and structures	✓	✓
Location of existing and proposed easements, rights-of-way, sidewalks, and utilities	✓	✓
Location of natural features such as watercourses, wetlands, floodplains, rock outcroppings, and stands of trees	✓	✓
Setbacks from property boundaries, right-of-way, surface waters, and wetlands	✓	✓
Location and dimension of parking areas, loading and unloading facilities, and points of ingress and egress of vehicles to and from the site to public streets	✓	

Any other information that the DRB requires to determine compliance with the provisions of these regulations

✓ ✓

Section 5.2: Planned Unit Development Approval

A) Purpose. The purpose of a PUD shall be to encourage flexibility of design and development so as to promote the most appropriate use of land, facilitate the adequate and economical provision of streets and utilities, and to preserve the natural and scenic qualities of the land.

B) Application Requirements. A complete application for a PUD shall include all the information requested on the Montgomery DRB Project Application Form, the requirements in Table 5 for conditional uses, and the application fee.

C) Public Notice and Issuance Requirements. PUD require conditional use review. The requirements and standards in Section 5.1 shall apply to all PUD applications.

D) Modification of Regulations. Pursuant to Section 4417 of the Act, the DRB may vary the density or intensity of land use otherwise applicable under these zoning regulations with respect to the location and physical characteristics of the proposed PUD; the location, design, type and use of the lot and structures proposed; and the amount, location and proposed use of open space. Mixed uses shall be arranged so as to be compatible and to insure visual and aural privacy for the residents of the development and for adjoining. Pursuant to the Act, the DRB may grant a density increase of up to twenty percent (20%) above the otherwise allowed district density.

E) Review Standards. In addition to the standards applying to conditional uses, PUDs shall comply with the following:

- 1) Unless modified pursuant to D) above, the number of units allowed in a PUD shall not exceed the number that could be permitted if the land were subdivided based on the dimensional requirements of the Zoning District.
- 2) PUDs may include a mix of compatible uses as allowed in Table 4(A). These uses shall be arranged and buffered to ensure visual and acoustical privacy to residents in and around the development.
- 3) The minimum setback and yard requirements for the district in which the project is located shall apply to the periphery of the development.
- 4) The development shall be an effective and unified treatment of the project site, and shall be designed to minimize impact on streams, stream banks, slopes greater than 15%, wetlands, soils unsuitable for development, agricultural lands, forested areas, historic sites, natural areas, wildlife habitat, floodplains, and scenic resources.
- 5) The development shall take place over a reasonable period of time in order that adequate municipal facilities and services may be provided.
- 6) A PUD may involve the creation of separate building lots, or may include a development in which multiple buildings and uses are constructed on a single parcel in common ownership.
- 7) The DRB may require that a reasonable percentage of the land be utilized for open space, recreation areas or necessary town purposes and may establish

1 conditions on the ownership, use, and maintenance of said lands as it deems
2 necessary to assure preservation of said lands for their intended purposes.
3

4 **Section 5.3: Variance Approval**

5
6 **A) Applicability.** Requests for variances from the provisions of these Regulations may
7 be submitted for structures (but not for uses) and shall be regulated as prescribed in
8 §4469 of the Act.
9

10 **B) Application Requirements.** A complete application for a variance shall include all
11 the information requested on the Montgomery DRB Project Application Form, the
12 requirements of Table 5, and the application fee.
13

14 **C) Public Notice and Issuance Requirements.** The DRB shall issue a written
15 decision following a duly noticed public hearing according to Section 2.4 and 2.5.
16

17 **D) Review Standards.** The DRB may grant a variance and render a decision in favor
18 of the applicant only if all the five (5) facts listed below are found and the findings are
19 specified in its written decision.

- 20 1) That there are unique physical circumstances or conditions, including irregularity,
21 narrowness, or shallowness of lot size or shape, or exceptional topographical or
22 other physical conditions peculiar to the particular property, and that the
23 unnecessary hardship is due to such conditions, and not the circumstances or
24 conditions generally created by the provisions of the Regulations in the
25 neighborhood or district in which the property is located;
- 26 2) That because of such physical circumstances or conditions, there is no possibility
27 that the property can be developed in strict conformity with the provisions of
28 these Regulations and that the authorization of a variance is therefore necessary
29 to enable the reasonable use of the property;
- 30 3) That such unnecessary hardship has not been created by the appellant;
- 31 4) That the variance, if authorized, will not alter the essential character of the
32 neighborhood or district in which the property is located, nor substantially or
33 permanently impair the appropriate use or development of adjacent property, nor
34 be detrimental to the public safety and welfare; and
- 35 5) That the variance, if authorized, will represent the minimum variance that will
36 afford relief and will represent the least modification possible of these
37 Regulations and the Town Plan.
38

39 **E) Variances for Renewable Energy Structures.** When a variance from the
40 provisions of a Zoning Regulation is requested for a residential structure that is
41 primarily a renewable energy resource structure, the DRB may grant such variances,
42 and render a decision in favor of the appellant if all the following facts are found and
43 the finding is specified in its decision:

- 44 1) It is unusually difficult or unduly expensive for the appellant to build a suitable
45 renewable energy resource structure in conformance with the Regulations;
- 46 2) That the hardship was not created by the appellant;

- 1 3) That the variance, if authorized, will not alter the essential character of the
2 neighborhood or district in which the property is located, substantially or
3 permanently impair the appropriate use or development of adjacent property,
4 reduce access to renewable energy resources, nor be detrimental to the public
5 safety and welfare; and
- 6 4) That the variance, if authorized, will represent the minimum variance that will
7 afford relief and will represent the least deviation possible from these Regulations
8 and the Town Plan.

1 **Article 6: General Regulations**

2
3 **Section 6.1: Abandonment of Structures and Destroyed or Damaged**
4 **Structures**

5
6 **A) Abandonment of Structures.** Any structure shall be deemed abandoned when it
7 has not been maintained for at least one year. Abandoned structures must be either
8 maintained or demolished. There is no time limit on how long a structure may
9 remain unused provided it is maintained in the judgment of the ZA. A structure is
10 maintained with exterior walls, intact windows, and an intact roof.

11
12 **B) Destroyed or Damaged Structures.** Within one (1) year after any structure or
13 development has been destroyed or damaged by fire, or other cause, or if active
14 work on an uncompleted construction project has not occurred in such period and
15 the Health Officer determines that the structure, or development, constitutes a health
16 or safety hazard, the owner shall either:

- 17
18 1) Remove all ruins and structural materials and restore the site to a smooth grade;
19 or
20
21 2) A person shall reconstruct, repair or resume construction of the structure.
22 Reconstruction of a destroyed structure shall require a zoning permit.
23
24 3) An application for reconstruction of a destroyed non-conforming structure or a
25 structure on a non-conforming lot submitted within one year of the destruction
26 may be approved as a permitted use.
27
28 4) The footprint of a non-conforming building is grandfathered.
29
30 5) If the owner fails to correct or remove the health or safety hazard, the
31 Selectboard may order removal or correction of the hazard and place a lien on
32 the property for all associated costs.
33

34 **Section 6.2: Alteration of Existing Grade (Excavation, Grading and**
35 **Filling)**

36
37 **A) Applicability.** A zoning permit is required for the alteration of existing grade by
38 excavation, grading, removal of earth, and/or depositing of rock, concrete, stone,
39 gravel, sand, cinders, stumps, soil or other material used for the filling of land, unless
40 exempted in Section 4.1. Any excavation or fill involving 100 or more cubic yards of
41 material, or which the ZA determines may cause a change in the rate or direction of
42 drainage to the detriment of neighboring properties shall require conditional use
43 approval from the DRB.
44
45

1
2
3 **B) Specific Review Standards.**

- 4 1) Filling shall only be conducted with clean material such as sod, loam, sand,
5 gravel, or quarried stone. Biodegradable material shall not be considered clean
6 fill.
7 2) The effect upon the use of adjacent property by reason of noise, dust or
8 vibrations shall be evaluated and no undue adverse effect shall be created.
9 3) The effect upon traffic hazards in residential areas or excessive congestion or
10 physical damage on public ways shall be evaluated and no undue adverse effect
11 shall be created.
12 4) The project may be limited in the duration of its permit to any length of time that
13 the DRB deems appropriate.
14 5) The project may be limited in the hours of operation, routes of transportation or
15 material removed.
16 6) The DRB may require suitable bond or other security adequate to assure
17 compliance with the provision of this Section for the proper rehabilitation of the
18 site.
19

- 20 **C)** The alteration of an existing grade by excavation, grading, removal of earth, and/or
21 depositing of rock or other material used for filling land shall not be done in a manner
22 that may cause a change in the rate or direction of drainage to the detriment of the
23 neighboring property.
24

25 **Section 6.3: Dumping**

26
27 In any District the dumping of refuse and waste material is prohibited, except in a
28 municipally approved solid waste facility.
29

30 **Section 6.4: Fences**

31
32 Fences require a zoning permit from the ZA and shall be permitted in accordance with
33 the standards below.
34

35 Review standards for fences:

- 36 1) Side and rear yard fences may be constructed on property lines.
37 2) Front yard fences shall not be constructed within the public right-of-way.
38 3) Fences shall be constructed of materials that will not cause injury to persons coming
39 in contact with them (agricultural fences are exempt).
40 4) Front yard fence height shall be no more than 4½ feet above average grade.
41 5) Front yard fences shall be of open type construction such as wire, chain link, wood
42 rail, iron, or wood picket with at least 50% open spacing (for example, 2" picket with
43 2" open space between pickets, 4" picket with 4" open space between pickets, etc.).
44

Section 6.5: Landscaping and Screening

- A)** Under conditional use review, the DRB may require that projects provide and maintain trees and/or landscaping to complement buildings and parking lots, and sufficient screening so that:
- 1) Neighboring properties are shielded from any adverse external effects of that development; and
 - 2) The development is shielded from the impacts of adjacent uses such as streets, service and storage areas.
- B)** Wherever possible, existing healthy trees and shrubs shall be preserved. Invasive species are prohibited as listed on <http://www.vtinvasiveplants.org/invaders.php>.

Section 6.6: Nonconformities

- A) Applicability.** Nonconformities include structures, uses and lots in existence before the effective date of these Regulations, which do not conform to the requirements set forth herein. Structures and uses improperly authorized as a result of error by the DRB are nonconforming.

B) Continuation of Nonconformities.

- 1) **Nonconforming Uses.** Any non-conforming use of a structure or of land may be continued indefinitely except that a non-conforming use shall not be reestablished after being discontinued for a period of one year, or after being changed to, or replaced by, a conforming use. Intent to resume a non-conforming use shall not confer the right to do so.
- 2) **Nonconforming Structures.** No provision of these Regulations shall prevent the normal maintenance and repair of a non-conforming structure provided that such action does not increase the degree of non-conformance.

C) Improvements to Nonconformities.

- 1) **Nonconforming Uses.** Any non-conforming use of structures or land shall not be changed, enlarged, altered or extended to a different non-conforming use.
- 2) **Nonconforming Structures.** The ZA may approve improvements to non-conforming structures that do not increase the degree of non-conformity through issuance of a zoning permit in accordance with these Regulations. Under conditional use review, the DRB may approve improvements to nonconforming structures that increase the degree of nonconformity only if required to comply with environmental, safety, health or energy codes, laws or regulations. See Figure 6(A) for an illustration of increasing the degree of nonconformity. Please note that if the structure is located within the SFHA, it may also be subject to the substantial improvement/substantial damage provisions in Article 8.

Figure 6(A) Increasing the Degree of Nonconformity of a Structure

The building 'A' is the original nonconforming structure because it encroaches into the setback. Additions 'B' and 'D' are allowed under these regulations because they do not encroach further into the setback than Building 'A'. Addition 'C' and 'E' are not allowed under these regulations because it encroaches further into the setback than Building 'A'.

1

D) Nonconformities in a Mobile Home Park. If a mobile home park, as defined in 10 V.S.A. Chapter 153, is a nonconformity, the entire mobile home park shall be treated as a nonconformity, and individual lots within the mobile home park shall in no event be considered nonconformities. Its status regarding conformance or nonconformance shall apply to the parcel as a whole, and not to any individual mobile home lot within the park. An individual mobile home lot that is vacated shall not be considered a discontinuance or abandonment of a nonconformity.

E) Pre-Existing Small Lots.

- 1) Even though not conforming to the minimum lot size requirements, any pre-existing lot that meets the following requirements may be developed for the purposes permitted in the district in which it is located:
 - a) It is legally subdivided;
 - b) It is not less than one-eighth (1/8) acre in area;
 - c) It has a minimum width or depth dimension of forty (40) feet;
 - d) It is in individual and separate and non-affiliated ownership from surrounding properties; and
 - e) It is in existence on the date of enactment of these Regulations.
- 2) If such lot subsequently comes under common ownership with one or more contiguous lots, the nonconforming lot shall be deemed merged with the contiguous lot. However, a nonconforming lot shall not be deemed merged and may be separately conveyed if all the following apply:
 - a) The lots are conveyed in their preexisting, nonconforming configuration; and
 - b) On the effective date of these Regulations, each lot had been developed with a water supply and wastewater disposal system; and
 - c) At the time of transfer, each water supply and wastewater system is functioning in an acceptable manner.

Section 6.7: Parking

A) Off-Street Parking. For every new building, or any building altered, extended or changed in use, there shall be minimum off-street parking spaces provided as follows (this requirement does not affect the use of on-street parking spaces):

1) One-Family and Two-Family Dwellings:	One (1) space for every unit
2) Multiple-Family Dwellings:	One and a third spaces for each unit, rounded up to the next whole number
3) Business Services, Personal and Professional:	One (1) space for every three hundred (300) square feet of office space
4) Lodging Establishments and Bed and Breakfasts:	One (1) space plus one (1) space for every guest room

5) Places of Public Assembly:	One (1) space for every four (4) seats, or if no seating is provided, one (1) space for every two hundred (200) square feet of floor area
6) Retail Establishment:	One (1) space for each vehicle used in the business, plus one (1) space for every two hundred fifty (250) square feet of floor area
7) Restaurants	One (1) space for every four (4) seats
8) Outdoor Recreation:	As required by the DRB
9) Light Industry:	One (1) space for every two hundred fifty (250) square feet of floor area
10) Other	As required by the DRB

B) Special Requirements. Under conditional use review, the DRB may require additional off-street parking and loading spaces for any use if they find the minimum number to create more than an occasional on-street parking problem. Similarly, the parking requirements for any use may be relaxed if the board finds that the particular use will not create more than an occasional on-street parking problem.

C) Combined Parking Space. Parking spaces for any number of separate uses may be combined in one lot, but the required space assigned to one use, may not be assigned to another use at the same time, except for uses with compatible parking needs with the approval of the DRB. An example of compatible parking needs is a church which requires parking on Sundays and a professional office operating during business hours Monday through Friday.

D) Off-Premise Parking. With the approval of the DRB, parking space may be provided on other property if such space lies within three hundred (300) feet of the entrance to the applicant's place of business.

E) Screening. The DRB may require that parking lots be suitably screened in accordance with Section 6.5. Where a non-residential use abuts a residential use, the parking or loading space shall not be closer than twenty (20) feet to the residential property.

F) Landscaping. The DRB may require parking lot islands to define circulation and break up large parking lots in accordance with Section 6.5.

1 **G) Siting of Off-Street Parking in the Village I District.** In the Village I District, off-
2 street parking lots shall not be located between the principal building and the street,
3 but rather to the side or rear. Where this is not possible due to physical site
4 constraints, the DRB may consider combined parking spaces, off-premise parking
5 spaces, or may waive this requirement.
6

7 **Section 6.8: Performance Standards**

8

9 The following standards of performance must be met and maintained by all uses in all
10 Districts. No use of land or structures shall:

- 11 1) Emit odors, noise, dust, dirt, noxious smoke or gases or other disturbances which
12 are offensive and uncharacteristic of the area, or which cause damage to any home,
13 business, vegetation or other property, or which endangers the health, safety or
14 welfare of the neighborhood;
- 15 2) Present an unreasonable risk as to fire, explosion, or hazard to any adjacent
16 property or vehicular traffic;
- 17 3) Cause sewage or other harmful wastes to be discharged into any water course or
18 into any disposal facility beyond its proper capacity. All local, state and federal health
19 standards shall be complied with; and
- 20 4) No principal building or accessory dwelling shall be erected without permanent
21 foundations and permanent siding.
22 a. A pole barn construction shall be regarded as having a permanent foundation.
23

24 **Section 6.9: Ponds**

25

26 **A) Applicability.** The construction of ponds and other impoundments may be allowed
27 as an accessory use in any district except Conservation II upon receipt of a zoning
28 permit. Very small ponds, under 6,000 cubic feet shall not require a permit but must
29 meet setbacks.
30

31 **B) Application Requirements.** In addition to application requirements for a zoning
32 permit, applications for ponds shall include the following mapped information:

- 33 1) All neighboring property uses;
- 34 2) All structures on the adjacent properties – to include, buildings, springs, septic
35 systems, wells, driveways, roads, etc.;
- 36 3) Hydrologic connectivity to any stream, wetland, or wet area that may be
37 hydrologically affected by the pond;
- 38 4) The spillway for the pond; and
- 39 5) For any pond involving the impoundment of water through the creation of an
40 embankment, berm, or other structure that exceeds the natural grade of the site
41 and contains greater than 200,000 cubic feet of water - a written certification that
42 the pond has been designed by a state licensed professional engineer.
43

44 **C) Review Standards.** In the issuance of a zoning permit the ZA, in consultation with
45 Road Commissioner, shall find that:

- 1) The proposed pond poses no danger to neighboring properties, roads, bridges and culverts.
- 2) Any pond that will impound, or be capable of impounding in excess of 500,000 cubic feet of water has applied for a permit from the Vermont Department of Environmental Conservation in accordance with the requirements of 10 V.S.A. Chapter 43. It shall be a condition of the Zoning Permit that this permit be obtained and filed with the Town.
- 3) If the project necessitates any work in a stream and if a stream alteration permit or other approval is required from the Vermont Department of Environmental Conservation in accordance with 10 VSA Chapter 41, such permit or approval has been applied for. It shall be a condition of the Zoning Permit that such permit or approval be obtained and filed with the Town.

Section 6.10: Roads, Driveways and Access Requirements

A) Applicability. Roads and driveways shall comply with the applicable standards in this section.

- 1) **Driveways (private).** All private accesses serving 1 or 2 lots shall be considered driveways. The interest of the owner of each lot served by a common or shared driveway shall be in the deed of each lot created.
- 2) **Roads (public or private).** All accesses serving three (3) or more lots shall be considered roads. All roads shall be private unless otherwise accepted as public roads by the Selectboard. The interest of the owner of each lot served by a private road shall be protected in the deed of each lot created.

B) Driveway Requirements.

- 1) All residential driveways entering onto public roads or streets must obtain a driveway permit from the Selectboard and meet the Selectboard's specifications for grade, culverts, ditching, and visibility. Culvert installation requires approval from the Selectboard or their authorized agent.
- 2) All driveways shall be located at least fifty (50) feet from a street line intersection for all uses except one or two-family residential uses.
- 3) All industrial uses shall have access to a maintained public road or street and shall have unobstructed visibility of such road or street for three hundred (300) feet in either direction from any driveway access.

C) Road Construction Standards. All new public and private roads shall comply with the State of Vermont Road Standards ordinance as adopted by the State.

D) Access to Lots without Frontage. No land development may be permitted on lots which do not have frontage on either a public road or public waters, unless the DRB, grants approval of access to such lot or lots by a permanent easement or right-of-way of record of at least twenty (20) feet in width (see 24 V.S.A. 4412 (3)). The DRB

shall consider the intended use of the property, safety, traffic, and road and site conditions in granting, conditioning, or denying approval. According to 6.10(B)(3) above, industrial uses are not eligible for such easement or right-of-way.

Section 6.11: Signs

A) Applicability. Signs require a zoning permit from the ZA in accordance with this Section. For the purposes of these Regulations, a sign is any display or representation, used or placed as an announcement, direction or advertisement. The word "placed" for the purpose of this definition shall include erected, constructed, fastened or affixed to the ground or a structure, or made visible in any manner whatever. Signs on the interior of a structure and visible through a window are excluded.

1) Types of Signs. There are several types of signs, which include but are not limited to wall signs, projecting signs and free-standing signs (i.e. monument or pole signs) (Figure 6(B)).

- a) Wall signs may be placed on the exterior face of a wall, window, awning or any other extension of a building.
- b) Projecting signs may be mounted on the exterior of a building so the sign projects perpendicular to the buildings face.
- c) Free-standing signs may be fastened to a monument, pole or other free-standing structure.

2) Signs Not Requiring a Zoning Permit.

- a) Residential signs not exceeding four (4) square feet in size and six (6) feet in height, which only state the name and address of the occupants.
- b) Farm signs.
- c) Historic markers not exceeding four (4) square feet in size and six (6) feet in height.
- d) On-site directional, safety, or parking signs.
- e) Signs erected by a public school, the Town of Montgomery, the State of

- Vermont or the United States Government, including official business directional signs permitted under 10 V.S.A. Chapter 21, §486.
- f) Bulletin boards on the premises of any church, school, or similar public structure provided they do not exceed twenty-four (24) square feet in size and ten (10) feet in height.
 - g) Temporary real estate or construction signs provided they do not exceed twenty-four (24) square feet in size and eight (8) feet in height and are removed promptly when the property has been sold, leased or developed.
 - h) Signs or flags indicating that a business is open and/or the hours of operation, provided such signs or flags are:
 - i) Limited to one per use (one for hours of operation and one open/closed sign, or one for both);
 - ii) Are located on the premises of the use for which the sign is advertising; and
 - iii) Do not exceed fifteen (15) square feet for a flag and four (4) square feet for a sign.

3) Signs Specifically Prohibited in all Zoning Districts.

- a) Advertising billboards 10 V.S.A. Chapter 21.
- b) Flashing, oscillating, or revolving signs, unless necessary for public safety and welfare.
- c) Roof signs.
- d) Free standing signs in excess of twenty (20) feet in height.

B) Number and Size of Signs Permitted per Unaffiliated.

	Number	Maximum Area
Home Occupations, Bed and Breakfasts	1	8 square feet
Commercial and Light Industrial Uses	2	20 square feet
Public Facilities and Uses	1	20 square feet
Other	As permitted by the DRB	

The following standards shall apply when calculating total permissible sign area:

- 1) Pre-existing signs shall be included in the calculation of sign area.
- 2) One sign face will be considered as the sign area for double-sided signs and signs designed to be viewed from two directions in which the two single faces are at not more than a thirty degree angle from each other.
- 3) For a sign painted on or applied to a building, structure, or window, the area shall be considered to be that of the smallest rectangle or simple geometric shape enclosing all the copy and/or graphics of the sign (Figure 6(C)).

Figure 6(C)

C) Review Standards.

- 1) All signs, regardless of type, shall comply with the following standards:
 - a) Signs are exempt from the setback standards in Section 4.3.
 - b) Signs shall be located on the premises for which the sign is intended to announce, advertise or provide direction.
 - c) All signs must be kept in good repair.
 - d) Every sign shall be designed and located so that it will:
 - i) Not impair public safety;
 - ii) Not restrict clear vision between a sidewalk and a street;
 - iii) Not be confused with traffic signs or signals;
 - iv) Not prevent free access to any door, window or fire escape; and
 - v) Withstand a wind pressure load of at least thirty (30) lbs. per square foot.
 - e) Signs may be illuminated provided it is by steady lights that do not reflect onto other properties, nor impair a driver's vision.
 - f) However, free-standing signs shall be set back at least ten (10) feet from the edge of the traveled portion of the public road, and at least ten (10) feet from any other lot line.
- 2) Projecting signs shall:
 - a) Not extend within a highway right-of-way.
 - b) Not extend more than four (4) feet from the building wall;
 - c) Not be less than ten (10) feet above a public walking area;
 - d) Not be greater than six (6) square feet in area.

Section 6.12: Storm water Management and Erosion Control

Under conditional use review, the DRB may require that developments incorporate temporary and permanent storm water management and erosion control practices as appropriate for the type and density of proposed development and lot coverage to ensure that the project and subsequent development does not result in soil erosion, the degradation of surface waters and/or hazards to properties within the vicinity.

Accordingly:

- 1) All storm water management systems shall be designed to:
 - a) Use natural drainage systems to the extent feasible, and minimize the need for system maintenance;
 - b) Maximize on-site infiltration and treatment of storm water, and minimize surface runoff;
 - c) Accommodate anticipated flows, including existing surface water runoff and total runoff generated by the proposed development at build-out, including anticipated flows from storm events;
 - d) Provide storage areas and treatment to manage flows and protect water quality; and
 - e) Avoid damage to adjoining properties and downstream drainage facilities.
- 2) All areas exposed during construction shall be protected in accordance with standards contained in the Low Risk Site Handbook for Erosion Prevention and Sediment Control published by the Vermont Department of Environmental

1 Conservation, Agency of Natural Resources, including any updated versions of this
2 publication.

- 3
4 3) The DRB may require the submission of stormwater management and/or erosion
5 control plans, prepared by a licensed professional, for all phases of development.
6 Such plans shall incorporate accepted management practices as recommended by
7 the state in the Vermont Storm water Management Manual and the Low Risk Site
8 Handbook for Erosion Prevention and Sediment Control, and identify the person(s)
9 or organization responsible for system maintenance.

- 10
11 4) The DRB may require project phasing to minimize the extent of soil disturbance and
12 erosion during each phase of development.

13 **Section 6.13: Installation & Operation of Hydronic Heaters**

14
15
16 The installation in any district of an outdoor wood fired hydronic heater (hydronic
17 heaters) shall require a permit. There are also known as “outdoor wood boilers”

18
19 In Village I and Village II installations of any hydronic heater must be certified to meet
20 current Federal EPA Certifications, and comply with the setback and stack height
21 requirements under sections 2-204 of Vermont Air Pollution Control Regulations.

22
23 In other residential districts, installation of hydronic heaters must meet the certification
24 requirements of the 2006 EPA emission standards for hydronic heaters.

25
26 All hydronic heaters must be operated in strict accordance with manufacturer’s
27 instructions and fuel requirements.

28
29 The operator/owner shall bear the burden of proving that appropriate certifications are
30 met.

1 **Article 7: Specific Standards**

2
3 **Section 7.1: Accessory Dwelling Units**

4
5 **A)** Accessory dwelling units shall comply with the following standards:

- 6 1) The property shall have sufficient wastewater capacity (State approved);
7 2) The unit shall not exceed 30 percent of the total habitable floor area of the single
8 family dwelling; and
9 3) Applicable setback, coverage, and parking requirements specified in these
10 Regulations shall be met.
11

12 **Section 7.2: Camping Vehicles and Campgrounds**

13
14 **A) Camping Vehicles.** Any camping vehicle used for living quarters and sited so as
15 not to be readily movable shall be deemed a dwelling and shall be subject to all
16 Zoning Regulations applicable to dwellings.
17

18 **B) Campgrounds.** New campgrounds, and any addition or alteration to an existing
19 campground requires conditional use review. In addition to the conditional use
20 review standards, campgrounds are subject to the following regulations:

- 21 1) They shall provide for lavatory, shower and toilet facilities and individual camping
22 vehicle or tent spaces.
23 2) They shall maintain a strip of land at least fifty (50) feet wide as a landscaped
24 area abutting all camp ground property lines. No camping vehicle, tent, utility or
25 service building may be placed within this buffer area. The DRB may reduce or
26 eliminate this landscaped area provision, if such a modification or waiver will
27 make it possible to preserve a scenic view from the campground, providing that
28 privacy for adjacent property owners can be maintained.
29 3) Collector roads within the campground shall meet the following minimum widths:
30 a) (1) one way roads - twelve (12) feet.
31 b) (2) two way roads - twenty four (24) feet.
32

33 **Section 7.3: Earth Resource Extraction**

34
35 **Earth Resource Extraction.** Earth resource extraction includes the commercial
36 extraction of minerals, including solids such as sand and gravel, liquids such as water,
37 and gases such as natural gas. It may also include preparation activities such as
38 crushing and washing customarily part of earth resource extraction activities. Earth
39 Resource Extraction requires conditional use approval in the Rural Residential and
40 Conservation I District and is prohibited in all other districts.

41 **1) Specific Exceptions.** This Section shall not apply to the removal of natural
42 resources from a farm operation, nursery, or cemetery to the extent that such
43 removal is necessary to the operation of the same.
44

45 **2) Application Requirements.** In addition to conditional use application requirements,

1 earth resource extraction proposals shall be prepared by a Vermont Licensed
2 Engineer and include:

- 3 a) The depth of excavation;
- 4 b) Existing grade and proposed grade created by removal or addition of material;
- 5 c) Proximity to roads and adjacent properties;
- 6 d) The average amount of earth resource to be extracted on a monthly or annual
7 basis;
- 8 e) The hours of operation and seasons of use;
- 9 f) The expected duration of operation;
- 10 g) The number of truck trips per day traveling to/from the extraction site;
- 11 h) An erosion and sediment control plan to be followed while the extraction
12 operation is active; and
- 13 i) A reclamation plan that addresses grading, seeding, mulching, planting, fencing,
14 drainage, and other measures.

15
16 **3) Review Standards.** The DRB shall find that the plan does not cause any undue
17 adverse effect to health or property based on the conditional use review standards
18 and the following additional standards:

- 19 a) The operation shall not have an adverse effect upon the use of adjacent property
20 or town roads due to noise, dust, or vibration.
 - 21 i) Within the required setback areas, the natural vegetation shall be retained,
22 and supplementary planting or other screening may be required in order to
23 buffer impacts from the operation.
 - 24 ii) No power-activated sorting or crushing machinery or equipment shall be
25 located within three hundred feet of any street or other property line, and all
26 such machinery shall be equipped with satisfactory dust control devices.
- 27 b) The operation shall not create traffic hazards or excessive congestion or physical
28 damage to public highways and expected routes of truck traffic.
- 29 c) All surface drainage affected by excavation operations shall be controlled by the
30 owner to prevent erosion debris and other loose materials from filling any
31 drainage course, street, or private property.
- 32 d) Suitable fencing or other appropriate safety precautions may be required around
33 extraction sites, sedimentation ponds, and spoil or equipment storage areas.
- 34 e) Explosives may be used only per a plan approved by the DRB.
- 35 f) The operation shall prepare a site rehabilitation plan that when followed will
36 reclaim the site by removing all debris, leveling all cut slopes and soil banks and
37 grading to an even low angle, and establishing a firm cover of grass or other
38 vegetation sufficient to prevent erosion. The DRB may require the posting of a
39 bond to assure such rehabilitation.

40 41 **Section 7.4: Family Child Care Home or Facility**

42
43 A family child care home or facility means a home or facility where the owner or
44 operator is to be licensed or registered by the state for childcare.
45

- 1) A family child care home serving no more than six full-time children and four part-time children shall be considered to constitute a permitted single-family residential use of property (i.e. Once a zoning permit for a single-family residential use of property has been obtained, no permit is required for such a family child care home or facility on that property, although any new structures or structural alterations that would otherwise normally require a permit still require a permit).
- 2) Family child care homes or facilities that serve more than six full-time and four part-time children shall be considered Personal or Professional Business Services under these Regulations.

Section 7.5: Group Homes

A residential care home or group home, to be operated under state licensing or registration, serving not more than eight (8) persons who have a handicap or disability as defined in 9 V.S.A. §4501, or are wards of the State shall be considered by right, to constitute a permitted single-family residential use of property (i.e. Once a zoning permit for a single-family residential use of property has been obtained, no permit is required for such a group home on that property, although any new structures or structural alterations that would otherwise normally require a permit still require a permit). The only exception is that no such home shall be so considered if it is located within one thousand (1,000) feet of another existing or permitted such home. Licensed or registered group homes serving more than eight persons who have a handicap or disability shall be considered Care Facilities under these regulations.

Section 7.6: Home Based Occupation

A) Home Occupation. A Home Occupation shall not require a zoning permit in any district and shall be considered to be part of a residential use. A Home Occupation is a use of an accessory building or minor portion of a dwelling for a Occupation must meet all of the following standards:

- 1) There are not employees or helpers other than members of the household.
- 2) The Home Occupation is not visible from outside the home.
- 3) The Home Occupation does not generate significant additional traffic.
- 4) The Home Occupation has no impact on the character of the neighborhood.
- 5) The Home Occupation has no signs.
- 6) The Home Occupation has no external storage of materials or equipment.
- 7) The Home Occupation produces no objectionable noise, smoke, vibration, dust or odors discernible on any adjoining property.

B) Home Business. A Home Business requires a zoning permit. No provision of these Regulations shall infringe upon the right of any resident to use a minor part of the residence or use an accessory structure for an occupation which is customary in residential areas and which does not change the character of the residential area providing all of the following standards are met:

- 1) The Home Business shall be carried on by members of the family living on the premises plus no more than one (1) non-family full-time equivalent employee.
- 2) The Home Business shall occupy a minor portion of the dwelling or an accessory structure.
- 3) There shall be no exterior displays, except that one (1) unlit sign not exceeding eight (8) square feet per side is allowed.
- 4) No traffic shall be generated in a volume that alters the essential character of the neighborhood or substantially impairs the use of adjacent property. There shall not be more than an estimated average of ten (10) vehicles per day associated with the activities of the Home Business.
- 5) Excessive noise, smoke, vibration, dust, glare, odors, electrical interference, or heat that is detectable at the boundaries of the property shall not be generated.
- 6) Where new parking is proposed, it shall be provided off-street and shall be located in side or rear yards outside setback areas. However, existing residential parking areas may be utilized.
- 7) Exterior storage of materials used in the home business shall be minimal, not visible from the street, road, or adjacent properties, and shall not be allowed in setback areas.
- 8) There shall be no potential risk to public health from the Home Business such as toxic emissions or on-site disposal of hazardous waste.

C) Home Businesses with Conditional Use Review. A Home Business not meeting all the standards above may be approved by the DRB under conditional use review. The DRB shall not approve more than three (3) non-family full-time equivalent employees and shall find that the Home Business complies with the conditional use review standards in Section 5.1.

Section 7.7: Mobile Homes, Modular Homes and Other Prefabricated Housing

Mobile homes, modular homes and other prefabricated housing shall be permitted in any district on the same terms and conditions as conventional housing, provided that they are anchored to a concrete pad or permanent foundation and a durable skirt is installed around the base, consistent with the appearance of a home.

Section 7.8: Mobile Home Parks

No provision of these Regulations shall be construed to prevent Mobile Home Parks, as defined in 10 V.S.A. Chapter 153. New Mobile Parks and any addition or alteration to an existing Mobile Home Park shall be subject to conditional use review and the following standards:

- 1) They shall have a contiguous use area of not less than five (5) acres and not more than thirty (30) acres. The maximum density of any Mobile Home Park shall not exceed an overall average of one (1) Mobile Home per acre in the Residential District.

- 2) They shall maintain a strip of land at least fifty (50) feet wide as a landscaped area abutting all Mobile Home Park property lines. No Mobile Home unit, office, utility or service building may be placed within this buffer area. The DRB may reduce or eliminate this landscaped area requirement if such a modification or waiver will make it possible to preserve a scenic view from the Mobile Home Park, provided that privacy for adjacent property owners can be maintained.
- 3) The minimum Mobile Home lot size shall meet the District requirement unless all lots are provided with public or common sewage disposal, in which case the minimum Mobile Home lot size may be twenty five (25) percent less than the District minimum lot size.
- 4) Each lot in a Mobile Home Park shall have at least fifty (50) feet of frontage on a Mobile Home Park road. Said roads shall be constructed to the Selectboard's road standards.
- 5) A non-porous pad, at least four (4) inches thick shall be provided for each Mobile Home lot. Each Mobile Home shall be set back at least twenty-five (25) feet from the edge of the road right-of-way.
- 6) Sewage disposal, water supply and garbage facilities shall comply with state regulations. All electric, telephone and other utility lines shall be underground, unless the applicant can demonstrate that due to utility company standards or pricing procedures, an unreasonable financial hardship will be created.

Section 7.9: Public Facilities

A) In accordance with §4413 of the Act, the following uses may only be regulated with respect to location, size, height, building bulk, courts, setbacks, density of buildings, off-street parking and loading facilities, traffic, noise, lighting and landscaping or screening and only to the extent that regulations do not have the effect of interfering with the intended functional use:

- 1) Churches and other places of worship, convents and parish houses;
- 2) Public or private hospitals;
- 3) Public or private schools and other educational institutions certified by the department of education;
- 4) Public utility power generating plants and transmission lines;
- 5) State or community owned institutions;
- 6) Regional solid waste management facilities certified under 10 V.S.A. Chapter 159; and
- 7) Hazardous waste management facilities for which a notice of intent to construct has been received under 10 V.S.A. §6606a.

B) Review Standards. The following standards shall be considered in reviewing Public Facilities:

- 1) Unsightly or incompatible land uses, such as substations, parking lots and refuse areas, shall be screened with landscape materials suitable to withstand weather conditions, compatible with the soil conditions (See also Section 6.5).

- 2) Adequate circulation, parking and loading facilities shall be provided with particular consideration to visibility at intersections, traffic flow and control, pedestrian safety, and access in case of an emergency.
- 3) To protect the privacy of adjoining property owners, additional yard space or setback from the property lines, other than what is already required in the District, may be required.
- 4) The density, size, height or bulk of buildings may be increased or decreased as needed, to ensure compatibility with established patterns of land use.

Section 7.10: Salvage Yards and Open Storage of Vehicles and Junk

A) Salvage Yards. Salvage yards require conditional use review from the DRB. In addition, a person shall not operate, establish, or maintain a salvage yard unless he or she:

- 1) Holds a certificate of approval for the location of the salvage yard from the Selectboard 24 V.S.A. Chapter 61, §§2251-2257; and
- 2) Holds a certificate of registration issued by the State of Vermont to operate, establish, or maintain a salvage yard.

B) Open Storage of Vehicles and Junk. In all Zoning Districts, junk and junk motor vehicles shall be stored in an enclosed structure or in an area concealed from view from adjacent property or public right-of-way.

Section 7.11: Wireless Telecommunications Facilities

New or expanded wireless telecommunications facilities that are not subject to 30 V.S.A. Section 248, including but not limited to towers and accessory structures, are subject to conditional use review and the provisions of this Section. In conformance with 24 V.S.A. §4412(9), the DRB may permit new or expanded telecommunications

facilities if the DRB finds that the facility will impose not more than a de minimus impact on the conditional use standards in Section 5.1 and the criteria in (F) below.

A) The following requires a Certificate of Public Good from the Department of Public Service under 30 V.S.A. Section 248, which preempts these Regulations:

- 1) Placement of wireless telecommunications facilities on electric transmission or generation facilities; and
- 2) Single application to construct or install three or more telecommunications facilities, each at least 50 feet above ground level, within three years as part of a network.

B) No Zoning Permit shall be required for the following:

- 1) Antennae with an aggregate area of not more than eight (8) square feet on the largest face and which are on masts that extend not more than twelve feet above

1 the specific roof area to which they are attached and are not located on historic
2 landmarks and structures.

3 2) Antenna structures less than twenty (20) feet in height with a primary function to
4 transmit or receive communication signals for commercial, industrial, municipal,
5 county, or state purposes.

6 3) Telecommunication facilities that are used exclusively for municipal radio
7 dispatch service or emergency radio dispatch service and which do not exceed
8 100 feet in height.

9
10 **C) Amateur radio, citizens band radio, AM or FM radio, or broadcast television**
11 **service towers** that exceed the requirements in (B) above but do not exceed 100
12 feet in height are exempt from the provisions of this Section, but require a zoning
13 permit as an accessory structure.

14
15 **D) Supplemental Application Requirements.** In addition to the application
16 requirements required for conditional use review a wireless telecommunication
17 facility permit application shall also include:

18 1) A location map showing the general area within a 2 mile radius of the facility.

19 2) A vicinity map showing the entire vicinity within a 2,500 foot radius of the facility,
20 including the location of all existing and proposed towers, topography, public and
21 private roads and driveways, buildings, structures, utilities, water bodies,
22 wetlands, 50 foot contour lines, landscape features, historic sites, and significant
23 wildlife habitats. It shall indicate the property lines of the proposed facility site
24 parcel and all easements or rights-of- way needed for access from a public way
25 to the facility.

26 3) Elevations and proposed site plans of the facility showing all facades and
27 indicating all exterior materials and colors of towers, buildings and equipment, as
28 well as all landscaping, utility wires, guy wires and screening. (All plans except
29 the vicinity map shall be drawn at a minimum scale of 1 inch = 50 feet.)

30 4) In the case of a site that is forested, the approximate average elevation of the
31 existing vegetation within 50 feet of any tower base.

32 5) A report from a qualified Vermont Licensed Engineer that:

33 a) Describes any tower's design and elevation.

34 b) Documents the elevation above grade for all proposed mounting positions for
35 antennas to be mounted on a tower and the minimum distances between
36 antennas.

37 c) Describes a tower's capacity, including the number, elevation, and types of
38 antennas that the tower is proposed to accommodate.

39 d) In the case of new facilities, demonstrates that existing towers and structures
40 within five miles of the site cannot reasonably be modified to provide
41 adequate coverage and adequate capacity to the community.

42 e) Describes potential changes or additions to existing structures or towers that
43 would enable them to provide adequate coverage.

44 f) Describes the output frequency, number of channels, and the power output
45 per channel for each antenna. As an alternative, a coverage map may be
46 provided.

- g) Demonstrates the facility's compliance with the standards set forth in these Regulations or other applicable standards.
 - h) Provides proof that at the proposed facility site the applicant will be in compliance with all FCC Regulations, standards and requirements, and includes a statement that the applicant commits to continue to maintain compliance with all FCC Regulations, standards and requirements for radio frequency radiation (RFR).
 - i) Includes such other information as determined by the DRB to evaluate the application.
- 6) A letter of intent committing the facility owner and its successors to permit shared use of any tower if the additional users agree to meet reasonable terms and conditions for shared use, including compliance with all applicable FCC Regulations, standards and requirements and the provisions of these Regulations and all other applicable laws.
 - 7) In the case of an application for additional antennas or other equipment to be installed on an existing facility, a copy of the executed contract with the owner of the existing structure.
 - 8) To the extent required by the National Environmental Policy Act (NEPA) and as administered by the FCC, a complete Environmental Assessment (EA) draft or final report describing the probable impacts of the facility, or a written statement by the applicant that an EA is not required for the facility.

E) Construction Standards. Telecommunications facilities shall conform to the following construction standards:

- 1) The facility will not be built on speculation. If the applicant is not a telecommunication service provider, the applicant shall provide a copy of a contract or letter of intent showing that a telecommunication service provider is legally obligated to locate a wireless telecommunication facility on lands owned or leased by the applicant.
- 2) The facility will not project more than 20 feet above the average elevation of the tree line measured within 100 feet of the highest vertical element of the wireless telecommunication facility, unless the proposed elevation is reasonably necessary to provide adequate telecommunication service capacity or coverage to Montgomery, or to accomplish co-location.
- 3) All telecommunication facilities shall comply with the setback provisions of the zoning districts in which facilities are located. Notwithstanding the above, in order to ensure public safety, the minimum distance of any wireless telecommunication facility to any property line, dwelling, or occupied structure shall be no less than the height of the tower, including antennas or other vertical appurtenances. This setback shall be referred to as a fall zone. In the event that an existing structure such as a barn silo, church steeple, or utility pole is proposed as a mounting for a wireless telecommunication facility, a fall zone setback may not be required.
- 4) The facility will not be illuminated by artificial means and will not display any lights or signs except for such lights and signs as required by Federal Aviation Administration, federal or state law, or these Regulations.

- 1 5) The DRB may require the applicant to provide a bond, or other form of financial
2 guarantee acceptable to the DRB, to cover the cost of removal of the facility,
3 should the facility be abandoned or cease to operate.
- 4 6) The applicant demonstrates that the facility will be in compliance with all Federal
5 Communications Commission (FCC) standards and requirements regarding radio
6 frequency radiation. The owner of a wireless telecommunication facility shall, on
7 a yearly basis, file a certificate to the ZA showing that it is in compliance with all
8 FCC standards and requirements regarding radio frequency radiation, and that
9 adequate insurance has been obtained for the facility.
- 10 7) The facility will be properly identified with appropriate warnings indicating the
11 presence of radio frequency radiation.
- 12 8) The proposed equipment is installed on an existing wireless telecommunication
13 facility, unless it is demonstrated by the applicant that such co-location is not
14 structurally or spatially possible.
- 15 9) The facility provides reasonable opportunity for the installation and operation of
16 other telecommunications equipment (co-location).
- 17 10) Unless otherwise approved by the DRB, an abandoned or unused wireless
18 telecommunication facility shall be removed within 2 years of abandonment or
19 cessation of use. The applicant may apply to the DRB for an extension for
20 removal. If the facility is not removed, or an extension granted, within 2 years of
21 abandonment or cessation of use, the DRB may cause the facility to be removed.
22 The costs of removal shall be assessed against the facility owner.
- 23 11) Unused portions of a wireless telecommunication facility shall be removed within
24 1 year of the time that such portion is no longer used. Replacement of portions
25 of a facility previously removed shall require a new permit.

26
27 **F) Additional Conditional Use Criteria.** In addition to the conditional use standards in
28 Section 5.1 and the construction standards in (E) above, the DRB shall approve an
29 application for a wireless telecommunications facility when it finds that the
30 application does not impose more than a de minimus impact on the following criteria:

- 31 1) The facility will not unreasonably interfere with the view from any public park,
32 natural scenic vista, historic building or district, or major view corridor.
- 33 2) The facility will not have an undue adverse aesthetic impact. In determining this,
34 the DRB shall consider the following factors:
 - 35 a) The results of a balloon test, if conducted.
 - 36 b) The extent to which the proposed towers and equipment have been designed
37 to blend into the surrounding environment through the use of screening,
38 camouflage, architectural design, and/or imitation of natural features.
 - 39 c) The extent to which access roads have been designed to follow the contour of
40 the land and will be constructed within forest or forest fringe areas and not
41 open fields.
 - 42 d) The duration and frequency with which the facility will be viewed from a public
43 road or from public property.
 - 44 e) The degree to which the facility will be screened by existing vegetation,
45 topography, or existing structures.

- 1 f) Background features in the line of sight to the facility that obscure or make the
- 2 facility more conspicuous.
- 3 g) The distance of the facility from the point of view and the proportion of the
- 4 facility that is above the skyline.
- 5 i) The sensitivity or unique value of a particular view affected by the facility.
- 6 ii) Any significant disruption of a viewshed that provides context to an
- 7 important historic or scenic resource.
- 8 3) The facility will not generate undue noise.

Article 8: Hazard Area Regulations

Section 8.1: Applicability and Interpretation

A) These regulations shall apply to the River Corridors and Special Flood Hazard Areas (hereafter called "Hazard Areas") in the Town of Montgomery, Vermont as described below. The provisions of these hazard area regulations shall not in any way impair or remove the necessity of compliance with any other local, state, or federal laws or regulations. Where this flood hazard regulation imposes a greater restriction, the provisions here shall take precedence.

- 1) **The River Corridor Area** as determined on the most current River Corridor Zone map published by the Vermont ANR which are hereby adopted by reference and declared to be part of these regulations. River Corridors with a watershed area draining less than two square miles are not mapped. For these small streams the standards in Section 8.5(C) shall apply to the area measured as fifty (50) feet from the top of the stream bank or slope.

Figure 8.1. Finding Top of Slope and Top of Bank for Measuring Setbacks on Un-mapped River Corridors.

- 2) **The Special Flood Hazard Area (SFHA)** in and on the most current flood insurance studies and maps published by the Department of Homeland Security, Federal Emergency Management Agency (FEMA), National Flood Insurance Program (NFIP), as provided by the Secretary of ANR pursuant to 10 V.S.A. Chapter 32 §753, which are hereby adopted by reference and declared to be part of these regulations.

B) Base Flood Elevations (BFE) and Floodway Limits in Special Flood Hazard Areas shall be determined as follows:

- 1) Where available, BFEs and floodway limits provided by NFIP and in the Flood Insurance Study and accompanying maps shall be used to administer and enforce these regulations.
- 2) In SFHAs where BFEs and/or floodway limits have not been provided by the NFIP in the Flood Insurance Study and accompanying maps, it is the applicant's

responsibility to develop the necessary data. Where available, the applicant shall use data provided by FEMA, or State, or Federal agencies.

C) Interpretation of Special Flood Hazard Area, Base Flood Elevation, Floodway, and River Corridor.

The information presented on any maps, or contained in any studies, adopted by reference, is presumed accurate.

1) If uncertainty exists with respect to the boundaries of the SFHA or the floodway, the location of the boundary shall be determined by the ZA which are located on the FHA maps at the town clerk's office. Appeals with respect to the district boundaries can be made to the DRB in accordance with Section 2.6. If the applicant disagrees with the determination made by the ZA, a Letter of Map Amendment (LOMA) from FEMA shall constitute proof.

2) If uncertainty exists with respect to the boundaries of the River Corridor, the location of the boundary shall be determined by the ZA. Appeals with respect to the district boundaries can be made to the DRB in accordance with Section 2.6. If the applicant disagrees with the determination made by the ZA, a letter of determination from the Vermont ANR shall constitute proof. *If the applicant believes an amendment should be made to the State's River Corridor Map, see Section 3.1 (A)(6), above.*

D) Warning of Disclaimer of Liability.

This bylaw does not imply that land outside of the areas covered by this bylaw will be free from flood or erosion damages. This regulation shall not create liability on the part of the Town of Montgomery, or any municipal official or employee thereof, for any flood or erosion damages that result from reliance on this regulation, or any administrative decision lawfully made hereunder.

Section 8.2: Development Review in the Hazard Areas

A) A zoning permit is required for all development within the Hazard Areas, unless exempted according to Table 8.

B) Development that according to Table 8 requires Hazard Area Review, shall obtain such approval from the DRB, after duly warned public hearing according to Section 2.4, prior to the issuance of a Zoning Permit.

C) Table 8 also conveys development that is prohibited or exempt from these regulations in the Hazard Areas.

D) For the purposes of this Section, development is defined as any man-made change to improved or unimproved real estate, including but not limited to buildings or other

structures, mining, dredging, filling, grading, paving, excavation or drilling operations or storage of equipment or materials in accordance with Title 44 Code of Federal Regulations (CFR) 59.1.

Table 8 Development Review in Hazard Overlay Areas

P Permitted HAR Hazard Area Review X Prohibited E Exempt SFHA Special Flood Hazard Area FW Floodway RC River Corridor	SFHA	FW	RC
New principal structures, including residential and commercial structures and the placement of a manufactured home	HAR	X	X
Substantial improvement, elevation, relocation, or flood proofing of existing structures, including any fill needed to elevate existing structures	HAR	HAR	HAR
Non-substantial improvements to existing structures	P	HAR	P
Accessory structures	HAR	X	HAR
Building utilities	P	X	HAR
New or replacement fuel storage tanks for existing structures	HAR	X	HAR
Parking lots, at grade	HAR	X	HAR
Grading or excavation (other than that needed for ZA permitted activities), including creation of a pond	HAR	X	HAR
Bridges, culverts, public utilities, stabilization projects or other public projects which are functionally dependent on stream access or stream crossing	HAR	HAR	HAR
Public utilities and stabilization projects for which no reasonable alternative location exists	HAR	HAR	HAR
Correctly sized bridges and culverts, which by their nature must be placed in or over the stream, and have been authorized by the Agency of Natural Resources	HAR	HAR	HAR
Improvements to existing structures	HAR	HAR	HAR

The removal of a building or other structure in whole or in part	E	E	E
Passive recreation and open space	E	E	E
Accepted Agricultural Practices and Silvicultural Accepted Management Practices	E	E	E

Section 8.3: Application Requirements

- A)** In addition to the application requirements for permitted or conditional uses as applicable, applications for development within the Hazard Area Overlay Districts (HAOD) shall also include the following information:
- 1) The location, on the site development plan, and associated elevations of all structures, roads, and water supply and wastewater facilities in relation to the channel, floodway, and BFEs;
 - 2) A description of the extent to which any watercourse will be altered or relocated as a result of the proposed development; and
 - 3) A Vermont ANR Project Review Sheet for the proposal. The Project Review Sheet shall identify all State and Federal agencies from which permit approval is required for the proposal, and shall be filed as a required attachment to the municipal permit application. The identified permits, or letters indicating that such permits are not required, shall be submitted to the ZA and attached to the permit before work can begin.
 - 4) For applications in the SFHA, a completed FEMA "Elevation Certificate" prepared by a registered surveyor, engineer, architect or other official authorized

1 by the state to certify building elevations, for any building constructed after the
2 publication of the town's Flood Insurance Rate Maps;

3 5) Where flood-proofing is proposed (as allowed only for nonresidential buildings),
4 a completed FEMA "Flood-proofing Certificate" prepared by a registered
5 professional engineer or architect who is authorized by the state to certify flood-
6 proofing design and construction; and

7 6) A hydraulic and hydro-geologic analysis for any development located within the
8 floodway.

9 7) For applications in the River Corridor, the site plan shall depict the shortest
10 horizontal distance from the proposed development to the top of bank or slope of
11 any stream.

12
13 **B)** In accordance with §4424(2)(D) of the Act, no zoning permit for development in the
14 HAOD shall be issued until:

15 1) A copy of the application is mailed or delivered by the ZA or by the DRB, to the
16 ANR; and

17 2) Either 30 days elapse following the mailing or the ANR delivers comments on
18 the application.

19
20 **C)** If the applicant is seeking a permit for the alteration or relocation of a watercourse,
21 copies of the application shall also be submitted to the adjacent communities, the
22 Stream Alteration Engineer at the Vermont ANR, and the Army Corps of Engineers.
23 Copies of such notice shall be provided to the NFIP Coordinator at the Vermont
24 ANR, DEC. A permit may be issued only following receipt of comments from the
25 Vermont Agency of Natural Resources, or the expiration of thirty (30) days from the
26 date the application was mailed to the Vermont ANR, whichever is sooner.

27 28 **Section 8.4: Certificate of Occupancy**

29
30 **A)** In accordance with Chapter 117 §4449, it shall be unlawful to use or occupy, or
31 permit the use or occupancy of any land or structure, or part thereof, created,
32 erected, changed, converted, or wholly or partly altered or enlarged in its use or
33 structure within SFHA until a certificate of occupancy is issued by the ZA, stating
34 that the proposed use of the structure or land conforms to the requirements of these
35 bylaws. A certificate of occupancy is not required for structures that were built in
36 compliance with the bylaws at the time of construction and have not been improved
37 since the amendment of this bylaw.

38
39 **B)** Within 14 days of the receipt of the application for a certificate of occupancy, the ZA
40 shall inspect the premises to ensure that all permits identified on the Vermont ANR
41 Project Review Sheet have been acquired and that all work has been completed in
42 conformance with the zoning permit and associated approvals. If the ZA fails to
43 grant or deny the certificate of occupancy within 14 days of the submission of the
44 application, the certificate shall be deemed issued on the 15th day. If a certificate of
45 occupancy cannot be issued, notice will be sent to the owner and copied to the
46 lender.

Section 8.5: Hazard Area Development Standards

A) Special Flood Hazard Area

1) All Development shall be:

- a) Reasonably safe from flooding;
- b) Designed (or modified) and adequately anchored to prevent flotation, collapse, release, or lateral movement of the structure during the occurrence of the base flood;
- c) Constructed with materials resistant to flood damage;
- d) Constructed by methods and practices that minimize flood damage;
- e) Constructed with electrical, heating, ventilation, plumbing and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding;
- f) Adequately drained to reduce exposure to flood hazards;
- g) Located so as to minimize conflict with changes in channel location over time and the need to intervene with such changes; and,
- h) Required to locate any fuel storage tanks (as needed to serve an existing building in the SFHA) a minimum of one foot above the BFE and be securely anchored to prevent flotation; or storage tanks may be placed underground, if securely anchored as certified by a qualified professional.

2) In Zones AE, **where BFE and/or floodway limits have not been determined**, development shall not be permitted unless it is demonstrated that the cumulative effect of the proposed development, when combined with all other existing and anticipated encroachment, will not increase the BFE more than 1.00 foot at any point within the community. The demonstration must be supported by technical data that conforms to standard hydraulic engineering principles and certified by a registered professional engineer.

3) **New Construction and existing structures to be substantially improved** in Zones A and AE shall be located such that the lowest floor is at least one (1) foot above BFE; this must be documented, in as-built condition, with a FEMA Elevation Certificate.

4) **Non-residential structures to be substantially improved** shall:

- a) Meet the standards in Section 8.5(A)(3); or
- b) Have the lowest floor, including basement, together with attendant utility and sanitary facilities be designed so that two feet above the BFE the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy; A permit for flood proofing shall not be issued until a registered professional engineer or architect has reviewed the structural design, specifications and plans, and has certified that

- 1 the design and proposed methods of construction are in accordance with
2 accepted standards of practice for meeting the provisions of this subsection.
3
- 4 5) **Fully enclosed areas below grade on all sides** (including below grade
5 crawlspaces and basements) are prohibited.
6
- 7 6) **Fully enclosed areas that are above grade, below the lowest floor, below**
8 **BFE and subject to flooding**, shall:
9 a) Be solely used for parking of vehicles, storage, or building access, and such a
10 condition shall clearly be stated on any permits; and,
11 b) Be designed to automatically equalize hydrostatic flood forces on exterior
12 walls by allowing for the entry and exit of floodwaters. Such designs must be
13 certified by a registered professional engineer or architect, or meet or exceed
14 the following minimum criteria:
15 i) A minimum of two openings on two walls having a total net area of not
16 less than one square inch for every square foot of enclosed area subject
17 to flooding shall be provided;
18 ii) The bottom of all openings shall be no higher than one foot above grade;
19 and
20 iii) Openings may be equipped with screens, louvers, valves, or other
21 coverings or devices provided that they permit the automatic entry and exit
22 of floodwaters.
23
- 24 7) **Recreational vehicles** must be fully licensed and ready for highway use.
25
- 26 8) **A small accessory structure of 500 square feet or less** that represents a
27 minimal investment need not be elevated to the BFE in this area, provided the
28 structure is placed on the building site so as to offer the minimum resistance to
29 the flow of floodwaters and shall meet the criteria in 8.5(A)(7) (above).
30
- 31 9) **Water supply systems** shall be designed to minimize or eliminate infiltration of
32 flood waters into the systems.
33
- 34 10) **Sanitary sewage systems** shall be designed to minimize or eliminate
35 infiltration of flood waters into the systems and discharges from the systems into
36 flood waters.
37
- 38 11) **On-site waste disposal systems** shall be located to avoid impairment to them
39 or contamination from them during flooding.
40
- 41 12) The flood carrying and sediment transport capacity within the altered or
42 relocated portion of any watercourse shall be maintained, and any alteration or
43 relocation shall not result in any decrease of stream stability;
44
- 45 13) **Bridges and culverts**, which by their nature must be placed in or over the
46 stream, must have a stream alteration permit from the ANR where applicable.

1
2 14) **Subdivisions** must be accessible by dry land access outside the SFHA.

3
4 **B) Floodway Areas.**

5
6 1) **Encroachments or development above grade and less than one foot above**
7 **the BFE**, are prohibited unless hydrologic and hydraulic analyses are performed
8 in accordance with standard engineering practice, by a registered professional
9 engineer, certifying that the proposed development will:

- 10 a) Not result in any increase in flood levels (0.00 feet) during the occurrence of
11 the base flood; and
12 b) Not increase any risk to surrounding properties, facilities, or structures from
13 erosion or flooding.

14
15 2) **Public utilities** may be placed underground, and the analyses may be waived,
16 where a registered professional engineer certifies that there will be no change in
17 grade and the utilities will be adequately protected from scour.

18
19 **C) River Corridor.**

20
21 1) **Improvements to existing structures**, and any associated fill as needed to
22 comply with elevation requirements in the SFHA shall not decrease the distance
23 between the existing primary building and the top of bank;

24
25 2) **Accessory structures** may be located within 50 feet of the existing primary
26 building provided that the location does not decrease the distance between the
27 existing primary structure and the top of bank.

28
29 3) **Development** shall not increase the susceptibility of that or other properties to
30 fluvial erosion damage.

31
32 4) **Development** shall not increase the potential of materials being swept onto other
33 lands or into the stream and causing damage to other properties from fluvial
34 erosion.

35
36 5) **Development** shall not cause an undue burden on public services and facilities
37 including roads, bridges, culverts, and emergency service providers during and
38 after fluvial erosion events.

39
40 6) **Bridge and culvert projects** must have a Stream Alteration Permit.

41
42 7) **Channel management activities** must be authorized by the Agency of Natural
43 Resources.

44
45 **Section 8.6: Standards for Review of Nonconforming Structures**

1 The DRB may, after public notice and hearing, approve the repair, relocation,
2 replacement, or enlargement of a nonconforming structure within a Hazard Area
3 provided that:

- 4 1) The proposed development is in compliance with all the Development Standards in
5 Section 8.5 above;
- 6 2) A nonconforming structure that is substantially damaged or destroyed may be
7 reconstructed only in circumstances when the structure cannot be relocated to a less
8 hazardous location on the parcel. The lowest floor of the reconstructed structure
9 must be rebuilt to one (1) foot or more above the BFE, and the structure must
10 otherwise comply with all requirements of the NFIP;
- 11 3) Nonconforming structures or uses shall be considered abandoned where such
12 structures or uses are discontinued for more than 12 months; and
- 13 4) An individual manufactured home lot in an existing manufactured home park that is
14 vacated shall not be considered a discontinuance or abandonment of nonconformity.
15 Replacement manufactured homes must be placed so as to meet the development
16 standards in these Regulations.

18 **Section 8.7: Variances to the Development Standards**

19
20 Variances may be granted in writing by the DRB only in accordance with all the criteria
21 in Section 5.3 and 44 CFR Section 60.6, after a public hearing noticed as described in
22 Section 2.4. In addition the following standards apply:

- 24 1) A variance for development within the River Corridor may be allowed if it is
25 determined that the proposed development will not obstruct the establishment and
26 maintenance of fluvial geomorphic equilibrium for the watercourse. Any comments
27 provided by the ANR shall be considered in this determination.
- 28
29 2) Any variance issued in the SFHA will not increase flood heights, and will inform the
30 applicant in writing over the signature of a community official that the issuance of a
31 variance to construct a structure below the BFE increases risk to life and property
32 and will result in increased flood insurance premiums up to amounts as high as \$25
33 for \$100 of coverage. Such notification shall be maintained with a record of all
34 variance actions.

36 **Section 8.8: Recording Requirements**

37
38 The ZA shall maintain a record of development within the Hazard Area Overlay Districts
39 including:

- 40 1) All permits issued for development in Hazard Areas;
- 41 2) Elevation certificates with the as-built elevation (consistent with the datum of the
42 elevation on the current FIRM for the community) of the lowest floor, including
43 basement, of all new or substantially improved buildings (not including accessory
44 buildings) in the SFHA;
- 45 3) All flood proofing and other certifications required under this regulation; and
- 46 4) All variance actions, including justification for their issuance.

Section 8.9: Violation of Flood Hazard Area Regulations

Where a violation of standards and regulations in this Article has not been cured after a warning notice has been sent in accordance with Section 2.7, the ZA shall submit a declaration to the Administrator of the NFIP requesting a denial of flood insurance. Section 1316 of the National Flood Insurance Act of 1968, as amended, authorizes the Federal Emergency Management Agency to deny flood insurance to a property declared by a community to be in violation of their flood hazard area regulations. The declaration shall consist of:

- 1) The name of the property owner and address or legal description of the property sufficient to confirm its identity or location;
- 2) A clear and unequivocal declaration that the property is in violation of a cited State or local law, regulation, or ordinance;
- 3) A clear statement that the public body making the declaration has authority to do so and a citation to that authority;
- 4) Evidence that the property owner has been provided notice of the violation and the prospective denial of insurance; and
- 5) A clear statement that the declaration is being submitted pursuant to Section 1316 of the National Flood Insurance Act of 1968, as amended.

Article 9: Definitions

Accessory Use or Building: A use or building customarily incidental and subordinate to the principal use or building, and located on the same lot.

Agribusiness: Any individual, partnership, corporation, or organization primarily supplying services or goods, (such as equipment, feeds, livestock or supplies), to producers of marketable agricultural products, including greenhouses, nurseries, farm co-operatives and the like.

Agricultural Use: (a) The cultivation or other use of land for growing food, fiber, Christmas trees, maple sap, or horticultural and orchard crops; or (b) the raising, feeding or management of livestock, poultry, fish or bees; or (c) the operation of green houses; or (d) the production of maple syrup; or (e) the on-site storage, preparation and sale of agriculture products principally produced on the farm; or (f) the on-site production of fuel or power from agricultural products or wastes produced on the farm; or (g) the raising, feeding, or management of four or more equines owned or boarded by the farmer, including training, showing, and providing instruction and lessons in riding, training, and the management of equines. No municipal permit for an agricultural use shall be required.

Base Flood: The flood having a one (1) percent chance of being equaled or exceeded in any given year (commonly referred to as the 100-year flood).

Base Flood Elevation (BFE): the elevation of the water surface elevation resulting from a flood that has a 1 percent chance of equaling or exceeding that level in any given year. On the FIRM the elevation is usually in feet, in relation to the National Geodetic Vertical Datum of 1929, the North American Vertical Datum of 1988, or other datum referenced in the Flood Insurance Study report, or the average depth of the base flood, usually in feet, above the ground surface.

Basement: Any area of a building having its floor below ground level on all sides.

Bed and Breakfast: A single family dwelling unit in which the resident owner or permanent occupant provides short-term lodging and meals to transient paying guests.

Building: A structure designed, built or used as a shelter for persons, animals, or property. Buildings shall include lunch wagons, travel trailers, mobile homes, etc. when sited in such a manner that they are not readily movable.

Business Service:

a. Personal: Includes banks, consultants, dry cleaners, home retailers and wholesalers, Laundromats, photographic studios, shoe repairing, and similar businesses that provide a personal service to the general public.

b. Professional: Includes barber shops, beauty parlor, dentist, doctor, financial advisor,

1 insurance agency, lawyer, real estate agency, and similar businesses requiring a
2 license to operate that provide a professional service to the general public.

3
4 **Camp:** A hut, shed or similar primitive structure used to shelter people from
5 the weather for hunting or vacation. May not be used as a permanent
6 dwelling. Limited to 900 square feet or less and no more than 20 feet in
7 height.

8
9 **Camp Ground:** A place or business providing tenting or camping vehicle
10 accommodations for commercial purposes, including travel trailer parks and
11 the like.

12
13 **Camping Vehicle:** A travel trailer, tent trailer, motor home, camper trailer,
14 truck camper or any other device or conveyance so constructed as to permit
15 its ready transport on public highways, and designed as temporary
16 living/sleeping quarters. A camping vehicle is in no way included under the
17 Mobile Home definition.

18
19 **Care Facility:** Buildings used as a clinic, rest home, nursing home,
20 convalescent home, or a home for the aged.

21
22 **Change of Use:** Any use that substantially differs from the previous use of a
23 building or land; a change that has the potential to increase the use beyond
24 that currently permitted; or a change of use classification, e.g. "retail" to
25 "restaurant."

26
27 **Channel:** Means an area that contains continuously or periodic flowing
28 water that is confined by banks and a streambed.

29
30 **Clinic:** Office buildings used by members of the medical profession for
31 diagnosis and outpatient treatment of human ailments.

32
33 **Club:** Buildings or use catering exclusively to members and their guests for
34 recreational, educational, civic, religious, fraternal, or other non-profit
35 purposes.

36
37 **Commercial Facility:** Includes office space, retail store, auto service station, equipment
38 sales and services, light industry and like uses. Also, buildings with five (5) or more
39 rental units, such as multi-family dwellings, rooming houses, dorms, ski lodges etc.

40
41 **Development:** The construction, substantial improvement, replacement or relocation or
42 any change in the use of any structure, or land, or extension of use of land. See also
43 definitions of "Substantial Improvement", "Land Development", and "Change of Use"
44 herein.

1 **Dwelling Unit:** Buildings or part thereof used as living quarters for one
2 family. The terms "dwelling", "one-family dwelling", "two-family dwelling", or
3 "dwelling group" shall not include a motel, hotel, boarding house, tourist
4 home or similar structure or use.
5

6 **Dwelling, Accessory:** An accessory dwelling unit is an efficiency, one-
7 bedroom apartment, or accessory structure, that is clearly subordinate to a
8 single-family dwelling and has facilities and provisions for independent living,
9 including sleeping, food preparation, and sanitation. The owner may occupy
10 either unit.
11

12 **Dwelling, One-Family:** Detached building designed and used as living
13 quarters by one household.
14

15 **Dwelling, Two-Family:** Building designed and used as living quarters by
16 two families living independently of each other.
17

18 **Dwelling, Multiple-Family:** Building designed and used as living quarters by
19 three or four families living independently of each other.
20

21 **Essential Public Services:** Includes the construction or installation, (by
22 public utilities, municipal or other governmental agencies or private groups),
23 of local consumer electric and telephone distribution lines, facilities for fire,
24 police, highway and health services to the Town, or other similar equipment
25 and accessories necessary for the furnishing of essential services.
26

27 **Excavation:** Any substantial breaking of ground and extraction or movement
28 of earth or rock, or any alteration of existing drainage patterns which
29 substantially affects adjacent properties. Common agricultural tillage, yard
30 care, gardening and excavations in cemeteries shall be exempt from these
31 Regulations.
32

33 **Fill:** Any placed material such as loam, rock, or stone that changes the natural grade,
34 increases the elevation, or diminishes the flood storage capacity at a site. Junk cars,
35 buildings materials etc. shall not be considered fill.
36

37 **Finished Grade:** Completed surfaces of ground, lawns, walks, paved areas
38 and roads brought to grades as shown on plans relating thereto.
39

40 **Flood Insurance Rate Map (FIRM):** an official map of a community, on which the
41 Federal Insurance Administrator has delineated both the SFHAs and the risk premium
42 zones applicable to the community. In some communities the hazard boundaries are
43 available in paper, pdf, or Geographic Information System formats as a Digital Flood
44 Insurance Rate Map (DFIRM).
45

1 **Flood proofing:** Any combination of structural and non-structural additions, changes or
2 adjustments to structures which reduce or eliminate flood damage to real estate or
3 improved real property, water and sanitation facilities, structures and their contents.

4
5 **Floodway:** The channel of a river or other watercourse and the adjacent land areas
6 which must be reserved in order to discharge the base flood waters without cumulatively
7 increasing the water surface elevation more than one foot.

8
9 **Fluvial Erosion:** Erosion caused by streams and rivers. Fluvial erosion can be
10 catastrophic when a flood event causes a rapid adjustment of the stream channel size
11 and/or location.

12
13 **Front Yard:** That portion of the lot containing a driveway, if any, and lying
14 between a public road or right-of-way, and a structure.

15
16 **Fuel Services:** Sales of fuel to end user to include convenience stores.

17
18 **Home Business Accessory Use** of an accessory building or minor portion of
19 a dwelling for a business that exhibits no external indications that a business
20 exists.

21
22 **Home Occupation:** Accessory Use, conducted within a dwelling or
23 accessory building by the residents thereof, to use a minor portion of a
24 dwelling for an occupation that is customary in residential areas and does
25 not have an undue adverse effect upon the character of the residential area
26 in which the dwelling is located 24 V.S.A. §4412(4)

27
28 **Household:** One or more persons, living, sleeping, cooking and eating on
29 the same premises as a single housekeeping unit.

30
31 **Hydronic Heaters (Outdoor):** An outdoor wood boiler that heats a liquid
32 which circulates to a structure for radiant heating.

33
34 **Industrial Uses:** Industrial uses shall include both manufacturing and
35 warehousing; specifically those activities involving the processing,
36 fabrication, and/or temporary storage of materials and products.

37
38 **Interested Person:** A party who may legally appeal to the DRB or
39 Environmental Court, as prescribed by §4465 (b) of the Act, generally
40 including any of the following:

41
42 a. the party owning title to the subject property, or the designated agent of said
43 party.

44 b. a person owning or occupying property in the immediate neighborhood who
45 can demonstrate a physical or environmental impact on the person's interest
46 under the criteria reviewed.

1 c. any ten persons who may be a combination of voters or real property owners
2 in the Town who file a petition with the DRB

3 d. the Selectboard of the Town, or any adjoining town.

4 e. any department and administrative subdivision of this state owning property or
5 any interest in property within the municipality and the agency of commerce and
6 community affairs.

7
8 **Junk:** Old or scrap copper, brass, iron, steel and other nonferrous material, including
9 but not limited to rope, rags, batteries, glass, rubber, waste, trash or any discarded,
10 dismantled, wrecked, scrapped or ruined motor vehicles or parts thereof.

11
12 **Land Development:** The division of a parcel of land into two or more parcels, the
13 construction, reconstruction, conversion, structural alteration, relocation or enlargement
14 of any building or other structure, or of any mining, excavation or landfill, and any
15 change in the use of any building or other structure, or land, or extension of use of land.
16 (§4303 (10)).

17
18 **Letter of Map Amendment (LOMA):** A letter issued by FEMA officially removing a
19 structure or lot from the flood hazard zone based on information provided by a certified
20 engineer or surveyor. This is used where structures or lots are located above the BFE
21 and have been inadvertently included in the mapped special flood hazard area.

22
23 **Light Industry:** "Ask Regional Planning for definition."

24
25 **Lodging Establishment:** A building or buildings containing rooms which are rented for
26 commercial purposes, such as sleeping units for transients, each sleeping unit
27 consisting of at least a bedroom and use of a bathroom. Included are hotels, motels,
28 tourist courts, cabins, motor lodges, "bed and breakfast", and the like.

29
30 **Lot:** A parcel of land occupied or to be occupied by only one principal building and the
31 accessory buildings or uses customarily incidental to it, having sufficient size to meet
32 minimum zoning requirements for use, coverage, and area, and to provide such yards
33 and other open spaces as herein required. Such lot shall have frontage on a public road
34 or other legal access as approved by the DRB. A lot may consist of:

- 35
36 a. a single lot of record.
37 b. a portion of a lot of record.
38 c. a combination of complete lots of record and/or portions of lots of record.
39 d. a parcel of land described by metes and bounds.

40
41 **Lot Frontage:** The boundary length of a lot on a maintained public road or other
42 approved access.

43
44 **Lot of Record:** Any lot which individually, or as a part of a subdivision, has been
45 recorded under the proper procedural steps in the office of the Town Clerk.

1 **Lowest Floor:** The lowest floor of the lowest enclosed area, including basement,
2 except an unfinished or flood resistant enclosure, usable solely for parking of vehicles,
3 building access or storage in an area other than a basement area is not considered a
4 building's lowest floor provided that such enclosure is not built so as to render the
5 structure in violation of the applicable non-elevation design requirements of 44 CFR
6 60.3.

7
8 **Manufactured Home:** A structure, transportable in one or more sections, which is built
9 on a permanent chassis and is designed for use with or without a permanent foundation
10 when attached to the required utilities. The term "manufactured home" does not include
11 a "recreational vehicle". A sectional prefabricated house shall not be considered a
12 mobile home.

13
14 **Mean Sea Level:** The National Geodetic Vertical Datum to which BFEs on the FIRM are
15 referenced.

16
17 **Mixed Use:** Buildings or land where there are two or more uses which are permitted in
18 the district. Mixed uses may include two or more different commercial uses, commercial
19 and residential uses, and/or commercial and industrial uses. Mixed Uses shall be
20 allowed in all residential districts.

21
22 **Mobile Home Park:** A parcel of land, under single or common ownership or control,
23 which is used, or is to be used, to accommodate two or more mobile homes. (See also
24 definition of Mobile Home Park in 10 V.S.A. §6201.).

25
26 **Motor Vehicle and Equipment Sales and Service:** An establishment providing sales
27 and or major servicing of automobiles, trucks, farm and construction equipment, and
28 other motorized vehicles, including dealerships, body shops, vehicle and equipment
29 repair shops, mobile home and camping vehicle sales and service establishments and
30 the like.

31
32 **New Construction:** Means structures for which the *start of construction* commenced
33 on or after the effective date of the floodplain management regulation adopted by the
34 community and includes any subsequent improvements to such structures.

35
36 **Non-Conforming Lot or Parcel:** Lots or parcels that do not conform to the present
37 regulations covering dimensional requirements but were in conformance with all
38 applicable laws, ordinances, and regulations prior to the enactment of the present
39 bylaws, including a lot or parcel improperly authorized as a result of error by the
40 administrative officer.

41
42 **Nonconforming Use:** Use of land that does not conform to the present regulations but
43 did conform to all applicable laws, ordinances, and regulations prior to the enactment of
44 the present bylaws and regulations, including a use improperly authorized as a result of
45 error by the administrative officer.

1
2 **Nonconforming Structure:** means a structure or part of a structure that does not
3 conform to the present regulations but was in conformance with all applicable laws,
4 ordinances, and regulations prior to the enactment of the present bylaws and
5 regulations, including a structure improperly authorized as a result of error by the
6 administrative officer.

7
8 **Office:** Space in buildings where the business of a commercial or professional service
9 is transacted.

10
11 **Parking Space:** Off-street space used for the temporary location of one (1) licensed
12 motor vehicle, which is at least eight (8) feet wide and eighteen (18) feet long, not
13 including access driveways, and having direct access to a street, right-of-way or alley
14

15 **Planned Unit Development:** One or more lots, tracts, or parcels of land to be
16 developed as a single entity, the plan for which may propose any authorized
17 combination of density or intensity transfers or increases, as well as the mixing of land
18 uses. This plan, as authorized, may deviate from bylaw requirements that are otherwise
19 applicable to the area in which it is located with respect to lot size, bulk, or type of
20 dwelling or building, use, density, intensity, lot coverage, parking, required common
21 open space, or other standards. (See also §4417 of the Act.)
22

23 **Plot Plan:** A development plan map, showing at an appropriate and consistent scale, all
24 existing physical and man-made features, all property easement and right-of-way lines,
25 all proposed structure locations and land use alterations, and any other information as
26 may be required to determine compliance with the provisions of the Zoning Regulations.
27

28 **Principal Building/Use:** A structure or use directly involved with the primary purpose of
29 ownership on a particular lot, which together with its accessory structures/uses,
30 constitutes all structures and uses of said lot.
31

32 **Public Uses & Facilities:** Includes the erection, construction and alteration of facilities
33 or nature of use by any municipal, state or federal government, public utility or other
34 quasi-public institution, of public buildings, electric transmission lines, recreation
35 facilities, water supply and sewage treatment facilities, including public and private
36 schools and other educational institutions certified by the VT Department of Education.
37

38 **Recreation Indoor:** Recreation that occurs indoors including but not limited to Includes
39 bowling allies, gymnasiums, hobby workshops, pool halls, skating rinks, swimming
40 pools, theaters.
41

42 **Recreation Outdoor:** Recreation that occurs outdoors including but not limited to
43 archery, skeet, or trap ranges, beaches, camp grounds, golf courses, golf driving
44 ranges, parks, recreation stadiums, riding stables, skating rinks, ski resorts, swimming
45 pools, tennis courts. Fishing, hunting and trail networks and similar forms of low impact
46 forms of recreation are exempt from these regulations.

Recreational Vehicles: A vehicle which is built on a single chassis and has four hundred (400) square feet or less when measured at the largest horizontal projections, is designed to be self-propelled or permanently towable by a light duty truck, and is designed as temporary living quarters for recreational, camping, travel or seasonal use and not as a permanent dwelling.

Religious Institution: Structure or facility dedicated to religious practice.

Residential Use: Includes single-family, two-family, and multi-family dwellings.

Restaurant: Includes bars, diners, lounges, nightclubs, free-standing food service stands and similar establishments where food is served.

Retail Store: Includes enclosed stores for the sale of retail goods, personal service shops, free-standing retail stand and shall exclude any drive-up service, gasoline service and motor vehicle repair service, new and used car sales and service, trailer and mobile home sales and service.

River Corridor: As determined on the most current River Corridor Map published by the Vermont ANR which are hereby adopted by reference and declared to be part of these regulations.

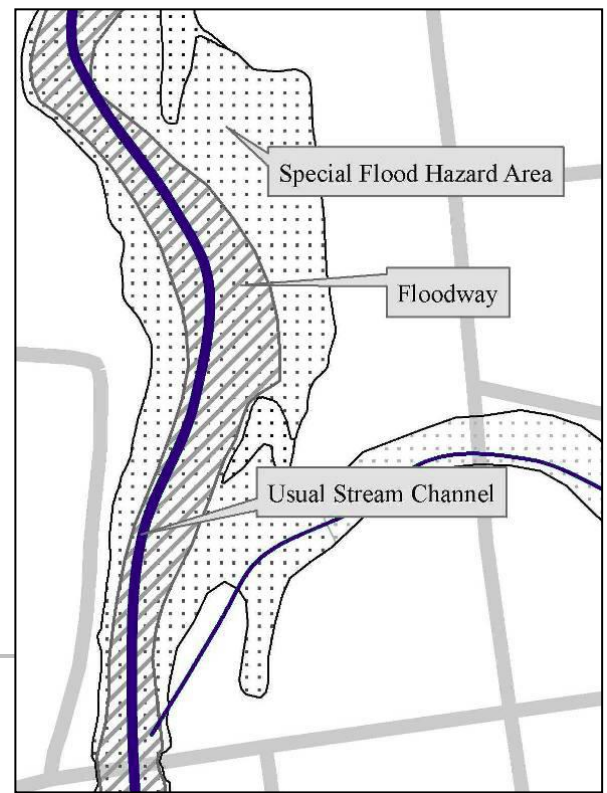

Salvage Yard: Buildings or land used for the collection, storage, or sale of junk, or for the collection, wrecking, dismantling, storage, salvage or sale of machinery or vehicles which are not inspected and not in operating condition. Four or more such vehicles constitute a salvage yard. Vehicles used in farm operation are exempt.

Setback: The nearest distance between the edge of property lines and public or private road right-of-ways and a structure, including all features of the structure.

Sign: Any display or representation used or placed as an announcement, direction or advertisement. The word "placed" for the purpose of this definition shall include erected, constructed, fastened or affixed to the ground or a structure. Signs on the interior of a structure and visible through a window are excluded.

Social Services: Day care center, medical clinic, convalescent home, and similar human service/health care facilities, and group or community care homes. (See also definitions of "Club" and "Dwelling" herein.).

Figure 7
Example of the Mapped Floodway and Special Flood Hazard Area

1 **Special Flood Hazard Area (SFHA):** The land in the flood plain, subject to
2 a one (1) percent or greater chance of flooding in any given year.

3
4 **Start of Construction:** The “start of construction” includes substantial improvement,
5 and means the date the building permit was issued provided the actual start of
6 construction, repair, reconstruction, rehabilitation, addition placement, or other
7 improvement was within 180 days of the permit date. The actual start means either the
8 first placement of permanent construction of a structure on a site, such as the pouring of
9 slab or footings, the installation of piles, the construction of columns, or any work
10 beyond the stage of excavation; or the placement of a manufactured home on a
11 foundation. Permanent construction does not include land preparation, such as clearing,
12 grading and filling; nor does it include the installation of streets and/or walkways; nor
13 does it include excavation for a basement, footing, piers, or foundations or the erection
14 of temporary forms; nor does it include the installation on the property of accessory
15 buildings, such as garages or sheds not occupied as dwelling units or not part of the
16 main structure. For a substantial improvement, the actual start of construction means
17 the first alteration of any wall, ceiling, floor, or other structural part of a building,
18 regardless whether that alteration affects the external dimensions of the building.

19
20 **Street:** A public highway for vehicular traffic which affords the principal means of access
21 to properties.

22
23 **Street Frontage:** Lot lines which abut a public highway.

24
25 **Structure:** An assembly of materials for occupancy or use, including, but not limited to,
26 a mobile home or trailer, billboard, sign, tennis court, swimming pool, satellite dish, and
27 a wall or fence."

28
29 **Structure Height:** Vertical distance, measured from the average elevation of the
30 proposed finished grade at the base of the structure, to the highest point of the roof for
31 flat, hip, and mansard roofs, and to the average height between eaves and ridge for
32 other types of roofs.

33
34 **Substantial Damage:** Damage of any origin sustained by a structure whereby the cost
35 of restoring the structure to its before-damaged conditions would equal or exceed 50
36 percent of the market value of the structure before the damage occurred.

37
38 **Substantial Improvement:** Any repair, reconstruction, or improvement of a structure,
39 the cost of which equals or exceeds fifty (50) percent of the market value of the
40 structure either before the improvement or repair is started or, if the structure has been
41 damaged and is being restored, before the damage occurred.

42
43 **Top of Bank:** That vertical point along a stream bank where an abrupt change in slope
44 is evident. For streams in wider valleys it is the point where the stream is generally able
45 to overflow the banks and enter the floodplain. For steep and narrow valleys, it will
46 generally be the same as the top of slope.

Use: The specific purpose for which land or a building is arranged, designed, or intended, or for which either land or a building is used, or intended to be used or occupied.

Violation: The failure of a structure or other development to be fully compliant with these regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in 44 CFR 60.3 is presumed to be in violation until such time as that documentation is provided.

Yard: Space on a lot not occupied with a structure. Porches, whether enclosed or open, and decks, shall be considered as part of the main building and shall not project into a required yard. The required yard distances shall be determined in the same manner as the setback. (See also "setback" definition herein.)
